IT STARTS WITH YOU

Community Emergency Response Team (CERT) Basic Training Weekend

Disasters cause serious disruption to the services of a community. In the immediate wake of a disaster, you and your neighbors are often thrust into the role of helping each other while emergency crews are spread thin. Community members should prepare to be on their own from 24-72 hours before professional help arrives.

CERT Basic Training Weekend is a 20-hour class that provides you the knowledge, skills, and ability to prepare yourselves and your household before responding to the emergency needs of your family and neighbors in the aftermath of a disaster.

*The class is **FREE** and provides all materials and PPE.*

Take CERT Basic Training for:

Yourself | Your Family | Your Neighborhood
Your Workplace | Your School | Your Church

Topics include:

- Disaster Preparedness
- CERT in Sedgwick County
- Fire Safety and Utility Controls
- Disaster Medical Operations
- Terrorism & CERT
- Search & Rescue
- Disaster Psychology
