

1. E-DISCOVERY PROJECT-DIVISION OF INFORMATION AND OPERATIONS
FUNDING-NETWORKING AND TELECOM
 (Request sent to 115 vendors)

RFB #13-0021 S/C #8000008104

	Alexander Open Systems, Inc.	DocuForce, Inc.	Symantec Corporation	ITS Partners, LLC
1. Email Archiving (e-discovery) solution	\$25,550.00	\$58,187.00	\$318,996.00	\$49.09/user base cost + \$15.99/user for folder sync, plus additional setup \$517.38
2. 3 yrs, Maintenance and Support	\$2,254.88	\$35,154.00	\$162,291.00	\$30,838.14 (based on 50 users)
Grand Total	\$27,804.88	\$93,341.00	\$481,287.00	\$34,609.52

The recommendation of Purchasing and DIO is **accept the proposal from Alexander Open Systems, Inc. for a total three (3) year cost of \$27,804.88.**

This solution will improve DIO's ability to efficiently and accurately respond to Electronic Data Discovery and KORA requests. Current processes are extremely manual and do not meet formal litigation requirements. Retention policies on the county's backup data have been greatly expanded to accommodate these requests in the past, taking up valuable storage space that will be freed up with the acquisition of this new system. The solution is scalable in nature and will most likely be expanded in future years.
