X-Change Auger Interface	\$360.24
PC Hose Kit	\$168.72
Dealer Charges	
Freight Charges	\$1,722.00
Total	\$69,494.98

On the recommendation of Britt Rosencutter, on behalf of Public Works and Fleet Management, Tim Myers moved to accept the quote from Clark Equipment Company dba Bobcat Company based on Sourcewell Contract #040319-CEC in the amount of \$69,494.98. Linda Kizzire seconded the motion. The motion passed unanimously.

Heavy rainfall and flooding during the Summer and Fall of 2016 called attention to a wide array of drainage and flooding issues in the county. The Stream Maintenance Program has been a successful way to clear stream obstructions and improve the flow of runoff in natural streams around the county. This mini excavator will also be used to clean out culverts and drains to improve drainage and flooding problems.

This item is an addition to Public Works and Fleet Management approved for the 2019 budget year and is not a replacement. Addition of this piece of equipment would expand the capabilities of the stream maintenance crew and increase the number of simultaneous work locations from two (2) to three (3).

Questions and Answers

Linda Kizzire: Was the Sourcewell contract competitively bid?

Britt Rosencutter: Yes, Ma'am. I believe there were about a dozen different vendors.

Linda Kizzire: What's the delivery estimated time?

Penny Poland: I'm sorry. I don't have the estimated delivery date with me. I would expect it to be between 60 and 90 days. (Later confirmed by quote.)
