Community Task Force

<u>DRAFT</u> List of Proposed Changes to System-Level Policies, Procedures

Purpose of the Task Force: To review and recommend preferred system improvements after the incident and death of Cedric Lofton

Goal of the Task Force: Develop recommendations for improvements and changes to the existing system standards and performance of Department of Children and Families (DCF), law enforcement, and youth corrections programs

Timeline

Foster Care and 911 Recommendations March 28 WPD and JIAC Recommendations – Part 1 April 4 April 11 JIAC Recommendations – Part 2 April 18 9-1-1 Recommendations; Review of comprehensive list of recommendations Final review of recommendations April 25

Legislative Laws **Foster Care** 911 WPD JIAC System Mental Health System

- At JIAC, we recommend
 - 6. Updating JIAC Policy 8.810 Use of Force [by specified date], so that it states:
 - Once youth is secured in a cell, instead of holding him/her down in the prone position, close the cell and allow the youth to calm down
 - Do not use any position that covers the youth's chest
 - Only allow the prone position to be used to cuff and sit, cuff and stand
 - One staff person be responsible for recording any incidents of restraint, keeping time to ensure a youth is not held down for longer than 3-5 minutes, and who will check to ensure youth is breathing. This person should never assist in restraining the youth. [KJCC has a program that could be used as a model.]

- At JIAC, we recommend:
 - 7. Requiring a medical staff person to be available on call 24/7
 - 8. Update the Medical and Mental Health State Medical Intake Form 8.804 so it requires information [needs to be defined] to be current and accurate before the transfer

- At JIAC, we recommend:
 - 9. Establishing a room at JIAC that could be safe for teens in a mental health crisis, where they can be safely left alone and not restrained. KDCC (state) made funds available last year and may have additional funding.
 - 10. Updating the **video recording system** at JIAC to **cover more areas** of the lobby and holding rooms and ensure that the recording system includes **audio** capacity [in process]

- At JIAC, we recommend to change policy that would:
 - 11. Not allow a juvenile in a WRAP be brought into the JIAC facility
 - 12. Not allow a single JIAC worker to handle someone described as "a combative juvenile"
 - 13. Require law enforcement officers who bring an allegedly combative, noncompliant youth into the JIAC to stay on scene, or at least nearby, at the JIAC until the juvenile is processed.
 - 14. Ensure all juveniles at JIAC are separated from each other so they are not exposed to potentially traumatic events

[Consider language to be included in MOU between WPD and JIAC?]

- At JIAC, we recommend:
 - 15. Creating and staffing a Citizens Review Board, to operate much like the same board for the Wichita Police Department
 - 16. Changes to the JIAC Investigation booklet (from April Terry):
 - Page 34: It was noted the JIAC did not have a defibrillator; perhaps the detention side did, but the intake side did not. I think this needs addressed.
 - Page 49: There are clear signs of lack of training—comments included observing no "physical" distress but no mention or awareness of mental distress. To also state that physical restraints are okay "until a juvenile relaxes" is traumatic and problematic. I'd like to visit this language.

We recommend

- 17. Implementing the Individual Justice Plan (IJP) in Sedgwick County
- 18. Using Team Justice as a vehicle to gain community volunteers for Crossover Youth Practice Model
- 19. Expanding the Kansas Department of Corrections Crossover Youth Model pilot program
- 20. A long-term goal for the Department of Corrections to develop and implement a strategy that moves juvenile systems to restorative justice

- We recommend
 - 21. The state Legislature review opportunities to modify the Stand Your Ground Law while being mindful in how those modifications will impact those who are covered by the law in other circumstances.

Mental Health Recommendations

Mental Health Recommendations

- Develop and implement a crisis response model that does not include law enforcement, using findings from the Youth Mobile Response Services report, as well as the CAHOOTS program in Eugene, Oregon. CAHOOTS stands for Crisis Assistance Helping Out On The Streets. https://www.eugeneor.gov/4508/CAHOOTS
 - Supporting evidence for this recommendation:
 - Their program has operated for nearly 30 years and have found their program diverts 5-8% of calls from police. Their response teams are a primary responder for many of their calls, but they also have the option of being used in a co-response with law enforcement or being summoned by law enforcement to a call if the officers deem the CAHOOTS team is better suited to respond.
 - Eugene, Oregon has a population of about 170,000 and has a model that uses two continuously overlapping van teams (two-person teams consisting of a medic (a nurse, paramedic, or EMT) and a crisis worker who has substantial training and experience in the mental health field). One van is staffed 24 hours per day and a second van runs 12 hours per day.
 - Wichita could implement a similar service, perhaps sized up to offer 3 or 4 overlapping van teams rather than 2.

Mental Health Recommendations

- We support
 - 2. Support Mental Health and Substance Abuse Coalition legislative agenda to increase the number of mental health professionals in Sedgwick County
 - 3. Increased funding for COMCARE, ICT One, 911 resources
 - 4. An agreement between DCF, its contractual agencies and foster families that outlines how to take a child in their care to a mental health facility if the child is in crisis
 - 5. Remote/virtual access to mental health consults at JIAC

Training Recommendations

Training Recommendations

- Develop and implement standardized training for law enforcement, JIAC and JDF personnel, to include topics on mental health first aid, adolescent brain development, and de-stigmatization of mental health. (repeat from foster care system)
- 2. Increase the number of police officers, including supervisors, who have Crisis Intervention Team (CIT) training
 - Require CIT training for new recruits at the Law Enforcement Training Center (expand resources)
 - Require CIT training for law enforcement supervisors
 - Require CIT training for JIAC and JDF personnel
- 3. Establish ongoing culture training in response to cultural diversity in the community police officers are serving and the PTSD many people of color experience when interacting with law enforcement
- 4. Require implicit bias training and testing for Wichita Police Department officers, supervisors

Training Recommendations

5. Offer additional training for law enforcement officers regarding when and under what circumstances a person can and should be taken to Ascension Via Christi St. Joseph, as opposed to JIAC

Other

RELATED recommendations

(From April Terry)

- Policy 906: Use-of-force
 - Cd: "...committing suicide" should be reworded to "To prevent someone from dying by suicide..."

- Policy 305: Juvenile Interrogations
 - Why is the age determined to be 14 for not having an adult present during a juvenile interrogation?
 - 2c1: Why give 30 minutes to the JDF before LEOs present for questioning?
 This is not enough time to secure an adult to be present with a youth under
 14 years-of-age.

RELATED recommendations (From April Terry)

- Policy 508: Child in Need of Care
 - 2c: Big picture: Why should a neglected child be detained at the JIAC? Surely there are better means for handling a "neglected" child and an "offending" child.
 - 4abcd: Reword these; specifically, "Have you had to perform...." "Have you or anyone else advertised.....?" I am suggesting changing the language on the sex trafficking questions here as they are narrow and can restrict gathering the information I believe they intend to seek.
