- During the month of June, Sedgwick County Developmental Disability Organization (SCDDO) Quality Assurance Staff completed 3 day and 12 residential program visits.

- On Friday June 7, 2019 the SCDDO's Behavioral Health Advisory Workgroup hosted a Meet and Mingle Event at Heroes Bar and Grill in Old Town. Both IDD and Behavioral Health professionals were able to get together, meet one another, and discuss important topics related to dual diagnosis and the two service systems. Approximately 50 people attended and enjoyed food, drinks and good conversation. Contact information was exchanged in an effort to promote communication between the intellectual/developmental disabilities (IDD) and mental health professionals to better serve those with co-occurring disorders.

- The Sedgwick County Business Leadership Network (BLN) hosted its annual meeting June 27 at Botanica. Around 30 folks enjoyed hors d'oeuvre, learned more about the BLN and its successes over the last year. Attendees also participated in a short experimental activity designed to increase understanding of mental illness in the workplace led by Dr. Jennifer Stone with Wichita State University.

- As part of a capacity building grant, Disability Cocoon hosted an online "Tech: Solutions Intro." The event focused on the potential enabling technologies have to transform how disability supports are defined and to reduce the reliance on scarce direct support (human) resources. The event acted as a one-day, online crash course on all things disability technology. The next step is for Disability Cocoon to begin in-person meetings with the four interested affiliates to determine what technologies would work best for them. The grant will cover the cost of the purchase and implementation of these technologies for the affiliates.
