- In April, Central Plains Area Agency on Aging, administered by the Department on Aging, was approved as a Medicare Diabetes Prevention Program (MDPP) supplier to offer the Centers for Disease Control and Prevention's (CDC) diabetes prevention program, *Prevent T2*. This means CPAAA may bill Medicare for Medicare beneficiaries attending this lifestyle change program.
- The RSVP Annual Volunteer Recognition Banquet was held April 11<sup>th</sup> at the Sedgwick County Extension Center. At the event and in conjunction with National Senior Corps events, 156 volunteers were recognized for contributions and service to the community. Chairman David Dennis, Commissioner Michael O'Donnell and Commissioner Lacey Cruse of the Sedgwick County Commission, County Manager Tom Stolz and Deputy County Manager Tim Kaufman attended in support of attendees thanking them for their dedication and service. RSVP volunteers provided more than 71,206 hours of service for 2018 with a value at \$1.7 million of goods and community service by volunteers. Program volunteers demonstrate that older adults are active community members and a valuable asset strengthening our communities.
- The Director attended the American Society on Aging (ASA), Aging in America conference held in New Orleans, LA April 15-18. Information on the latest legislative and federal policy information

were highlighted. The conference was educational and insightful providing information on more efficient service deliveries, developments in the field of aging and the future service trends.

- May is Mental Health Awareness Month COMCARE Community Partners has the following events scheduled to celebrate this month for awareness building.
  - They are hosting a viewing of the Kevin Hines Movie The Ripple Effect on Tuesday, April 30<sup>th</sup> at Risen Savior Lutheran Church located at 6770 E. 34<sup>th</sup> Street. \$5 donation is being asked to support Suicide Prevention Education Efforts.
  - They are planning a Mental Health Yard Sale. Dates are May 2–4, 2019 from 8 a.m. to 5 p.m. each day location is in the strip mall on the side of the Dillon's at 21<sup>st</sup> and Amidon.
  - Children's Mental Health Day will be honored with an Art Show on Saturday, May 18, 2019, from 1-3 p.m. at Old Cowtown in the Empire House Theater. It is a coordinated effort between COMCARE, COMCARE Community Partners and Wichita Public Schools.
- COMCARE HR and clinical staff have been attending college job fairs to promote open positions
  and schedule interviews with potential candidates. They will continue this effort for several
  more weeks with the hope of recruiting new graduates.
- Medical Services Questionnaires were distributed to patients attending medication appointments the week of March 18-22, 2019. 96% of respondents indicated they are satisfied with the medical services they receive at COMCARE and 98% report that their medical provider is responsive to his/her needs.

- During the month of April, Sedgwick County Developmental Disability Organization (SCDDO) Quality Assurance Staff completed 7 day and 11 residential program visits.
- KDADS conducted a peer review of the SCDDO April 10<sup>th</sup>. Peer reviews are performance reviews conducted by the State of Kansas biennially to ensure CDDO's are performing all the duties and activities required by regulations. Feedback from KDADS included glowing remarks about the SCDDO quality assurance program which the report indicated should be considered a best practice model. SCDDO also received commendation for its organization of review materials, state aid application packet and timely data entry among others items. The SCDDO did receive two findings that require corrective action. One finding related to the copy of the rights and responsibilities document shared with individuals residing in intermediate care facilities; and the other finding related to the quorum language for the Sedgwick County Community Council. Both issues will be immediately addressed.
- The Sedgwick County Board of Commissioners recognized the graduating class of Project SEARCH interns at their April 17<sup>th</sup> meeting. Project SEARCH is collaboration between Sedgwick County and Wichita Public Schools designed to provide students with intellectual or developmental disabilities (IDD) real world work experience to prepare them for employment upon graduation. Sedgwick County started the school year with ten interns but three started employment prior to graduation. Video of the graduation ceremony is available on the Sedgwick County Website at: http://sedgwick.granicus.com/player/clip/3840?view\_id=34\_item\_M. This year, among all the

- Project SEARCH sites located within the Sedgwick County region, students achieved a 40% employment rate prior to graduation.
- Advocates in the Community of South Central Kansas (ACT) hosted a legislative luncheon April 18<sup>th</sup>.
   Legislators in attendance heard about the capacity challenges facing the IDD system from several speakers, including Jeannette Livingston the SCDDO Assistant Director. While providers are grateful for the recent rate increases, direct support staff pay remains low and turnover high. The clear message was that any conversations about eliminating the waitlist for services must first address system capacity.
- The April Community Council meeting focused on resources and supports for individuals with IDD as they graduate from high school. Megan Todd with GoodLife spoke about their use of technology to form neighborhood networks to foster independence for individuals with IDD. Tracie Davis with Vocational Rehabilitation discussed the pre-employment transition services offered during and after graduation from high school. Tina Collins and Sara Gilchrist provided information on Friends University's Friendship Fields program for individuals with IDD to experience college. Additionally, information was available on other home and community based services available through the SCDDO affiliate network.
- SCDDO Director & Director of Quality Assurance attended a Rainbows United Mission Advocacy Meeting, along with representatives from InterHab, to discuss conflict free case management and potential changes that could impact the work of Rainbows United and/or community capacity for targeted case management.

### **Health Department\***

- Epidemiology: On April 12, Epidemiology staff participated in a table top exercise on mass vaccination plans in the event of pandemic influenza (flu). Epidemiology worked with Sedgwick County Emergency Management and health departments from six surrounding counties to review plans for points of dispensing (POD) and identify areas for improvement.
- Immunizations: During the month of April, the Immunization Program provided training for all USD 259 School Nurses during the annual School Nurse In-service Training. Nurses were trained on the 2019-2020 updated school required vaccine schedule and School Located Vaccination Clinics (SLVC) processes. A total of 86 nurses representing USD 259 elementary, middle and high schools were in attendance. The Immunization Program also participated in Medical Missions at Home by providing blood lead screening during the event held on April 13<sup>th</sup> 2019.
- Women, Infants and Children (WIC): WIC enrolled caseload shows 2,661 women, 2,684 infants, and 7,727 children under age five a total of 12,072.

<sup>\*</sup>Please see attached Sedgwick County Health Department Reports.

Activity	Program	April 2019	April 2018	Var%	YTD 2019	YTD 2018	Var	Reason for Variance
	Children's Dental Clinic – on-site services	139	121	15	416	376	11	The CDC has provided more school screenings this school year; identifying more eligible patients for services
	Children's Dental Clinic – off-site screenings <sup>2.</sup>		18	28	71	71	0	JDF/JRF resident numbers will vary depending on the number of children in the facilities at the time of monthly dental screenings. April of 18 and 19 just happen to be the same number.
	Early Detection Works <sup>3.</sup>	12	25	-52	88	94	-6	Enrollment number can randomly decrease or increase for no apparent reason.
S <sup>1.</sup>	Family Planning	480	460	4	1673	2030	-18	Changes in the way male wellness exams are being counted were a contributing factor to the YTD numbers.
ounter	Healthy Babies	731	518	41	2746	2085	32	Healthy Babies see the program participants on a monthly basis. This has allowed our program encounters to increase.
Clinical Encounters <sup>1</sup>	Immunizations & Health Screenings	781	762	2	3032	3518	-14	14% √ may be attributed to the severity of the 2017-18 flu season which saw a record number (186) of pediatric deaths. This resulted in a late winter/spring ↑ of 39% in flu encounters between Jan-April 2018 compared to the same time this year.
	Maternal Child Health Care Coordination (MCHCC)	57	63	-10	251	274	-8	Within variances
	Sexually Transmitted Infections Clinic	239	226	6	877	858	2	Within variances
	Tuberculosis Control	159	169	-6	509	768	-34	YTD decrease due to statewide decrease in TB cases
	Women, Infants, & Children (WIC) 4.	3,687	4,195	-12	14,552	15,030	-3	Based on March 2019 data. Caseload continues to decrease.
	Children's Dental Clinic	107	106	1	236	220	7	The CDC has provided more school screenings this year; identifying more eligible patients for services
	Early Detection Works <sup>3.</sup>	12	24	-50	86	87	-1	
ents <sup>5.</sup>	Family Planning	448	444	1	1343	1739	-23	
ed Cli	Healthy Babies Program – Primary Parent	422	369	14	561	476	18	Healthy Babies has seen increase in clients in 2019. This is due to ongoing recruitment events.
olicat	Immunizations & Health Screenings	724	686	6	2542	2888	-12	
Unduplicated Clients $^{\mathbb{S}}$	Maternal Child Health Care Coordination (MCHCC)	57	63	-10	251	274	-8	
	Sexually Transmitted Infections Clinic	222	201	10	746	741	1	Within variances
	Tuberculosis Control	52	79	-34	115	153	-25	YTD decrease due to statewide decrease in TB cases

<sup>1.</sup> Clinical Encounters are documented face-to-face or over-the-phone contact between a SCDOH client and a SCDOH healthcare provider/practitioner for the purpose of providing healthcare service or assessing client health status.

<sup>&</sup>lt;sup>2</sup> Offr-site dental screenings are performed at Sedgwick County schools, health fairs and the Sedgwick County Juvenile Detention facility.

<sup>&</sup>lt;sup>3.</sup> Early Detection Works is a program that provides breast & cervical cancer screening for women who qualify.

<sup>&</sup>lt;sup>4</sup>. WIC numbers reflect the month prior to report month.

<sup>5.</sup> Unduplicated clients are the number of clients served. Each client is counted once during the reporting timeframe.

Syphilis <sup>f.</sup>	69	68 <sup>g.</sup>	173	232 g.	86 <sup>e.</sup>
HIV/AIDS f.	5	8 g.	40	109 g.	26 e.
Vector-Borne Transmission					
Lyme disease	1	1	3	6	2
Spotted fever rickettsiosis	2	0	3	2	2
West Nile virus, non-neuroinvasive	0	0	1	0	1

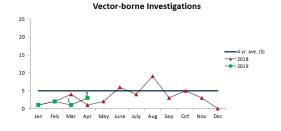

<sup>&</sup>lt;sup>a</sup> The most commonly reported notifiable conditions are listed in this table which shows the investigations performed by Sedgwick County staff (an indicator of workload and potential outbreaks). The numbers include suspect, probable and confirmed cases; people with positive screening tests; and contacts of cases.

### Monthly Trends of the Selected Investigations Shown on the Table

Sedgwick County Disease Intervention Specialists Investigate Sexually Transmitted Infections in the 57 Counties Shown in Red (C)

b. Beginning January 2016, reports of salmonellosis or Shiga toxin-producing *E. coli* infection are investigated by KDHE and are shown on the table.

<sup>&</sup>lt;sup>c.</sup> Beginning April 1, 2016, all elevated blood lead reports of  $\geq$  5  $\mu$ g/dL are investigated by SCDOH staff. From January 1, 2014 through March 31, 2016 elevated blood lead reports of  $\geq$  10  $\mu$ g/dL were investigated.

d. In cooperation with the Kansas Department of Health and Environment, Sedgwick County staff performs investigations of syphilis and HIV/AIDS in 57 Kansas counties. These data are shown in the table. Beginning January 2016, chlamydia and gonorrhea reports are investigated by KDHE (<a href="http://www.kdheks.gov/sti\_hiv/sti\_reports.htm">http://www.kdheks.gov/sti\_hiv/sti\_reports.htm</a>).

e. Two year average per month.

f. Both 2016 and 2017 investigations are calculated using a new methodology (by date report created in case management system).

g. 2016 reflects Sedgwick County staff shortages and training of new investigators.

a. Selected reported notifiable conditions are listed in this table which shows the number of confirmed and probable cases in Sedgwick County.

Case numbers are subject to change. The table shows the number of cases in Sedgwick County, by month of onset or surrogate date, which are completed and which meet the probable and/or confirmed case definitions used by the Centers for Disease Control and Prevention (CDC). CDC case definitions are available at http://www.cdc.gov/mmwr/preview/mmwrhtml/00047449.htm. Data reported are likely an underestimate of the actual number of cases in the community due to incomplete disease reporting and strict, standardized public health case definitions. The numbers in this table do not include all investigations.

- b. Confirmed cases are reported for this disease.
- c. Probable and confirmed cases are reported for this disease.
- d. Actual case determination for tuberculosis disease is not made until the end of each year, and the number reported on this table may not match the number of clients the health department has treated as tuberculosis cases.
- e. This number represents new LTBI cases that were seen in the Sedgwick County TB clinic and evaluated for treatment. Neither CDC nor the Kansas Department of Health and Environment track the number of people with tuberculosis infection (screen test positive and undergoing treatment but no active disease).
