FUNDING -- FIRE DIST. ADMIN**

(Request sent to 76 vendors)

RFB #22-0086 S/C #8000211255

		<b>Invena Corporation dba Emergency Fire Equipment</b>	
Description	Qty.	Each	Extended Price
Slip-In Pump & Tank Units	2 Ea.	<b>\$31,334.00</b>	<b>\$62,668.00</b>
Anticipated Delivery Date		<b>April 27, 2023</b>	

On the recommendation of Britt Rosencutter, on behalf of Sedgwick County Fire District 1, Tim Myers moved to **accept the bid from Invena Corporation dba Emergency Fire Equipment in the amount of \$62,668.00.** Jennifer Blasi seconded the motion. The motion passed unanimously.

The Slip-in Pump and Tank units are used in the rear bed of the Fire Squad trucks for first response at grass fires and trash fires. These units are replaced when the vehicle is replaced.

Notes:

These are replacement units. Surplus will be sold on Purple Wave.

**Questions and Answers**

Brandi Baily: What's the lead time on this?

Brian Richey: Typically the lead time on these with all the supply chain issues is 4 to 6 months. We're at a good area right now and are estimating 4 months for current lead time as of today.

Brandi Baily: Have we already ordered vehicles that these will be placed in?

Brian Richey: We ordered vehicles in 2022 for this equipment to go into.

Russell Leeds: What's the status of those vehicles?

Brian Richey: They are due mid-year. These should actually beat the trucks here. One is for the new truck and we're going to replace an old unit that is basically nickel and diming us.

Brandi Baily: How long do these typically last?

Brian Richey: Typically they last about 10 to 15 years without major repairs. One of the trucks being replaced is a 1994 model. Every time you are repairing, you don't know how deep you are going to go.
