

Environmental Resources

Mission: Enhance the quality of life in Sedgwick County through conservation of water and natural resources, waste minimization, coordination of solid waste management, and provide environmental education, special projects, and services to citizens, businesses, and local governments.

Susan Erlenwein
Director

Overview

Environmental Resources manages and enforces the Sedgwick County Solid Waste Plan and Household Hazardous Waste (HHW) Facility and provides community assistance and education regarding adherence to solid waste and stormwater regulations. The Department provides permits and inspections for the Sedgwick County Stormwater Management Plan, testing of surface waters, Hazard Communication training for County employees, chemical inspections of County departments, environmental assessments for Sedgwick County, and technical consultation for environmental projects affecting Sedgwick County. Staff work with Federal, State, and local agencies and serve on committees pertaining to water quality, air quality, stormwater runoff, conservation, solid waste, and natural resources.

Strategic Goals:

- Engage the community in proper recycling by offering special waste minimization projects and multiple HHW disposal options, and increase compliance with the Sedgwick County Solid Waste Code through enforcement and education
- Improve the quality and quantity of water resources within Sedgwick County through stormwater permitting, inspections, conservation practices, and education
- Increase environmental compliance and awareness of Sedgwick County through research, environmental assessments and consultations, and employee hazardous communication training

Highlights

- Reviewed 1,693 outfall locations for stormwater violations to make sure they conform with State law
- Issued 69,790 coupons over ten years that allowed residents to dispose of 1,000 pounds of bulky waste for no fee at the transfer stations
- HHW Facility handled 1,275,787 pounds of hazardous waste from 13,802 citizens in 2022
- Provided an electronic waste collection event in 2022 that collected 234,915 pounds of electronic waste from 2,452 vehicles

Accomplishments and Strategic Results

Accomplishments

Environmental Resources worked on Sedgwick County-owned properties with the Kansas Division of Water Resources to expand water appropriations to accommodate future growth. State law requires Sedgwick County to test impaired surface water bodies for specific pollutants. Environmental Resources developed a plan for testing these water bodies and worked with the Conservation District to implement best management practices to reduce surface water runoff and associated chemicals from entering these lakes and rivers. Due to this program, the number of Kansas Department of Health and Environment (KDHE) declared impaired surface water bodies in Sedgwick County has decreased by 80.0 percent. The Department endeavors to offer improved solid waste programs and projects to the citizens every year. In 2022, Environmental Resources continued free drug disposal sites at five City police stations throughout Sedgwick County. The Department also provided five remote HHW collection events throughout the County to help better serve the citizens. Environmental Resources provided an electronic waste collection event and continued to provide Bulky Waste Coupons, Christmas tree recycling, illegal dumping cleanups, nuisance abatements, and collection of household hazardous waste at the facility at 801 Stillwell.

Strategic Results

Environmental Resources is proud of their services to the community, and the Department tracks several strategic goals related to their services. One strategic goal was to provide one large annual special waste event each year. In 2022, Environmental Resources provided an electronic waste collection event that received 234,915 tires from 2,452 vehicles. Another strategic goal was to inspect each solid waste disposal facility randomly on a weekly basis for a minimum number of 156 inspections. In 2022, 160 inspections were completed. A third strategic goal was to inspect 1,693 water outfalls annually for illicit water discharges. In 2021, 1,693 water outfalls were inspected for illicit discharges.

Significant Budget Adjustments

Significant adjustments to Environmental Resources' 2024 budget include an increase in contractals due to increased household hazardous waste disposal costs (\$248,100), a decrease in contractals due to one-time grant funding in 2023 (\$41,760), a decrease in licenses and permits revenue to bring in-line with anticipated actuals (\$36,135), an increase in charges for services revenue to bring in-line with anticipated actuals (\$31,163), and the elimination of 0.29 full-time equivalent (FTE) Environmental Inspector position (\$19,975).

• Environmental Resources Administration

Environmental Resources provides information on environmental issues affecting County government such as the sale of environmentally sensitive County-owned land, the purchase of property, and the safe handling and disposal of hazardous materials formerly used by County departments. The Department conducts research and provides environmental consultation on county and community-wide projects, such as renewable energy, county water appropriations, and on issues dealing with surface and groundwater quality and quantity in Sedgwick County. Environmental Resources is responsible for mapping and inspecting stormwater outfalls, issuing storm water permits, testing surface water after certain rain events, and staffing the Stormwater Management Advisory Board. The Department works with erosion and water issues.

• Conservation District

The Conservation District provides water quality monitoring, increased irrigation efficiency, assistance to landowners in best management practices, and improvement of onsite waste water systems. The Conservation District receives State funding to help local landowners implement best management practice's on their land to decrease erosion and contamination of water. Sedgwick County's contribution to the Conservation District provides funding for external staff, water quality testing, supplies, and equipment.

• Project Management

Environmental Resources is responsible for implementing Sedgwick County’s Solid Waste Management Plan. This includes staffing the Solid Waste Management Committee, developing annual updates of the Solid Waste Management Plan, performing research, and designing special projects. Project management includes funding for the operation of storm debris equipment purchased in 2015.

• Waste Minimization

Solid Waste Minimization is responsible for working with local governments, citizens, and businesses on minimizing waste. This includes onsite waste analysis of businesses, developing advertisements, writing articles for newspapers, developing recycling booklets, staffing departmental booths at public events, and presentations to various groups and the public. Waste minimization also includes funding for the Christmas tree recycling program.

Household Hazardous Waste Services

The Household Hazardous Waste (HHW) Facility accepts common household hazardous wastes from individuals at no charge, keeps convenient hours, and features a swap-n-shop from which citizens may take and reuse selected materials. Small businesses qualifying as conditionally exempt small quantity generators may use the facility and pay the County's contract disposal rate. HHW partners with sponsoring communities and businesses to hold five remote collection events annually.

Storm Debris Contingency

The Storm Debris Contingency was established within the Solid Waste Fund to provide budget authority for unplanned disposal costs of solid waste. Initially established in after the 1991 Haysville tornado, the primary focus of this fund center was to assist with the tipping fees and other costs of disposing of the aftermath of storm damage. Originally included in the budget, it was shifted to a separate fund center for improved visibility. A resolution authorizing the original program was rescinded in 2015; however, the program was reestablished in the 2018 budget with an expanded scope for how the Contingency may be used.

Fund(s): Solid Waste 208
