

State Mental Health Hospitals

Presentation to South Central Regional Psychiatric Hospital Advisory Panel

Overview of Mental Health Hospitals

Dr. Lindsey Dinkel, Superintendent, Larned State Hospital

Ashley Byram, LMSW, Superintendent, Osawatomie State Hospital

State Mental Health Hospitals

Osawatomie State Hospital (OSH), Adair Acute Care (AAC) and Larned State Hospital (LSH) serve people experiencing serious symptoms of mental illness.

Persons who have been deemed a danger to themselves or others:

- Generally, exhibit symptoms that community providers cannot treat safely and effectively.
- Once stabilized, can return home and be supported by their local Community Mental Health Center (CMHC).
- The Hospitals are required to provide an array of mental health and basic medical treatment for all patients.

Larned State Hospital

Larned State Hospital operates 3 distinctly different treatment programs:

- Psychiatric Services Program (PSP)
- State Security Program (SSP)
- Sexual Predator Treatment Program (SPTP)

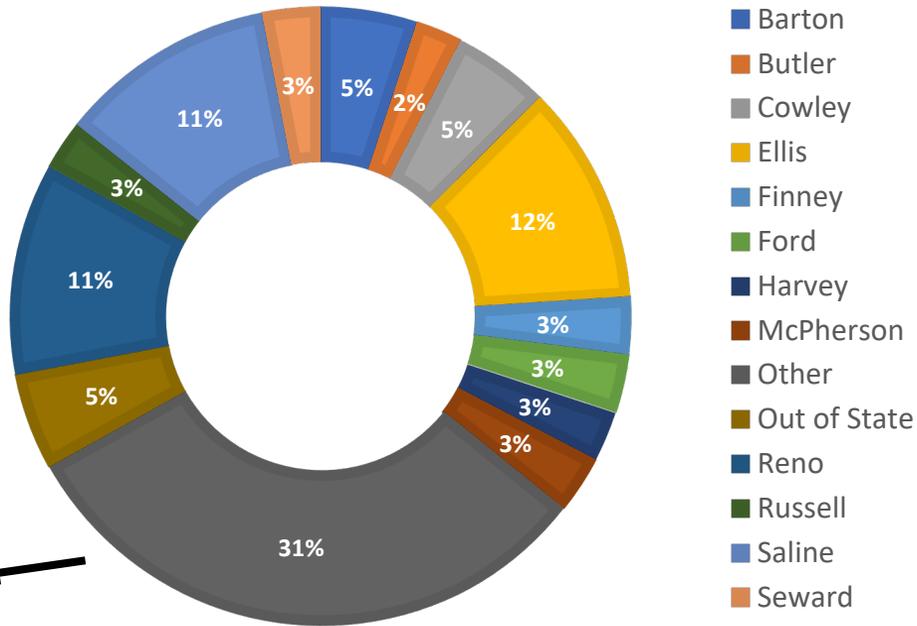

Larned State Hospital

Psychiatric Services Program (PSP):

- Serves voluntary as well as civilly committed adults with mental illness and is budgeted for 90 beds.
- Patients who enter the program are required to be screened by a qualified mental health professional from one of the community mental health centers in Central and Western Kansas or be referred under an order of evaluation or treatment from a judge.
- PSP admitted 642 patients and discharged 533. The PSP census is currently operating at 74.
- A wait list was necessary 228 of 365 days with approximately 28 pending admissions waiting per month for an average wait time of 55 hours.

Larned State Hospital

State Security Program (SSP):

- Known as the State Security Hospital in statute, SSP is budgeted for 140 beds with a current capacity of 100 adult male and female patients charged with felony crimes. The reduction in capacity is a result of staffing shortages.
- The District Courts refer individuals pursuant to the Kansas Code of Criminal Procedure for various criminal evaluations, competency restoration, treatment in lieu of confinement, or lack of mental state, in addition to a small number of females transferred from the Kansas Department of Corrections (KDOC).
- SSP includes the Security Behavior Unit (20 beds). This unit serves male patients administratively transferred from OSH or PSP who cannot be managed in a less restrictive environment, come from jail on a hold order with a high-level crime, and/or are a threat of harm toward patients and/or staff. Once their behavior is stabilized, they are transferred back to OSH or PSP.

SSP Mobile Competency (Out-Patient)

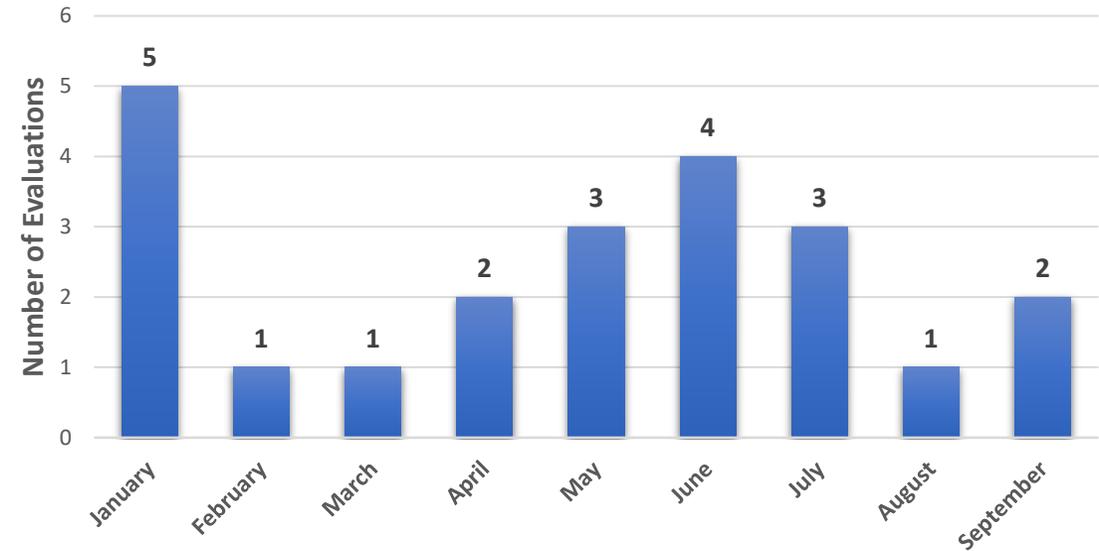

- The State Security Program (SSP) continues to review referrals from the District Courts and considers each case for possible completion through mobile competency in other secured or community settings outside of LSH, partnering with District/County Attorneys, jails and courts. LSH has established a position that is focusing on the SSP wait list in efforts to collaborate with courts and jails and increase mobile competency usage throughout the state.
- SSP continues to provide a monthly report to the Sheriff's Association outlining current status of individuals waiting for placement at the hospital, including the number waiting and length of time on the wait list.
- Partnerships have been established with 33 counties thus far to provide mobile competency evaluations and treatment in the community.
- SSP has worked in partnership with Douglas, Geary, Leavenworth, Sedgwick, Shawnee, and Wyandotte Counties on pilot projects providing competency restoration services in the jail. Similar pilot projects are being developed with Butler and Johnson Counties to provide mobile competency in additional secure locations.
- LSH has hired a remote psychologist to provide individual and group competency restoration sessions in jails or other secure locations. This individual also completes forensic evaluation reports for individuals participating in mobile/outpatient competency restoration.

Osawatomie State Hospital

- Osawatomie State Hospital has two psychiatric hospitals on grounds Osawatomie State Hospital and Adair Acute Care.
- OSH has served the State of Kansas for more than 156 years, currently serving adults with severe and persistent mental illness from 45 counties in Kansas and other states.
- 47% of patients served by OSH and 87% of patients served by Adair Acute Care (AAC) present with co-occurring substance use issues.

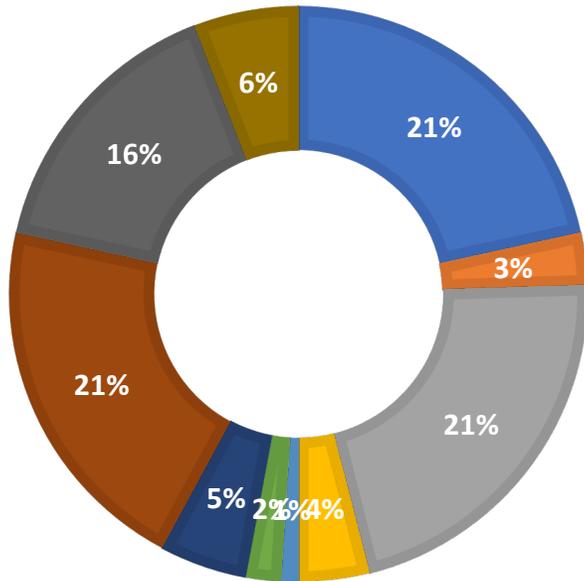

Osawatomie State Hospital

- Patients are admitted once screened by qualified mental health professionals from one of the Community Mental Health Centers or are referred for evaluation by the court.
- OSH: 116 licensed beds
 - Acute/intensive inpatient psychiatric treatment
 - Criminal court commitment
 - Dual commitment
- AAC: 60 certified/licensed beds
 - Only acute/intensive inpatient psychiatric treatment
 - Social Detox (3 beds)
- Both hospitals have semi-private rooms however, there are times when a patient, due to medical necessity, requires a private room, which then impacts the number of beds available.

Competency Evaluation and Restoration

- To assist with competency evaluations, OSH has been collaborating with Larned State Hospital (LSH) to determine if there are individuals on their wait list who could complete their evaluation or restoration at OSH in a less restrictive environment. OSH and LSH meet weekly to review the wait list
- Due to the increase of individuals requiring competency evaluations, OSH reorganized a 30-bed unit to focus solely on competency evaluation and treatment. Currently, OSH has 2, 30 bed units to provide this service.
