The workgroup identified the following gaps in services which will be presented before Team Justice during the next scheduled meeting on September 8, 2023:

Previous gaps in services that have yet to be addressed:

- Short term/transitional (STAP) housing for justice involved youth
- Day Treatment Center/Drop-In Center
- Services for middle school aged youth – targeting schools located in more crime prone areas of the community
- Services targeting youth that are system involved due to weapons related charges
- Substance abuse treatment – with focus placed on inpatient treatment services for males aged 10-15 and females.

New potential gaps in services:

- The implementation of the Juvenile Justice Oversight Committee (JJOC) “Innovations in Community Supervision Grant”

*The focus on all treatment programs will be to provide services that are timely, that are capable of accommodating the needs of the community, and that are geographically accessible.
