

## **Clarifications**

---

After its release, the Design Team provided clarification on items in their report.

### **Clarification 1**

The term *bi-annual* was improperly used to describe the county's license renewal schedule (pg 14 and 24). Currently, city licenses are renewed every year; the recommendation is to implement a renewal schedule in which licenses are renewed every 2 years.

### **Clarification 2**

The Design Team removed the first 3 paragraphs of the section titled *Assessment of Permit Fees* (beginning at the bottom of page 14). The recommendation is to implement more accurate methods to determine the value of projects; implying that some contractors intentionally abuse the current method was not the Team's intent.
