## **FOR IMMEDIATE RELEASE**

### **Sedgwick County Extension Arboretum Dedication**

(Sedgwick County, Kansas) – The Sedgwick County Extension Education Center will plant a Winterberry Euonymous tree and dedicate the Sedgwick County Extension Arboretum, Thursday, October 23 at the Sedgwick County Extension Center, 21<sup>st</sup> and Tyler Road, 12:30 p.m.

This educational planting of trees adapted to south central Kansas was established on the grounds of the Sedgwick County Extension Center in 1994. Additional trees have been added each year with the goal of developing an educational landscape.

"The Sedgwick County Extension Center provides numerous learning opportunities for the citizens of Sedgwick County," said Sedgwick County Commission Chairman Tim Norton. "The Arboretum is a great way for people to learn how and what type of trees they should plant in their own yards."
