FOR IMMEDIATE RELEASE

Sedgwick County Emergency Management Offers Tornado/Severe Weather Spotting Classes

(Sedgwick County, Kansas) -- Spring is fast approaching, and with it comes tornado season. While tornados can happen any time during the year, peak tornado occurrence is in March through May. Sedgwick County Emergency Management will be offering Tornado/Severe Weather Spotter Classes at various locations throughout the county beginning this month (see attached list of class locations and times).

“Residents need to be prepared for tornados and severe storms,” said Sedgwick County Commission Chairman David Unruh. “Storm spotter training is a great way for citizens to get involved. With this training, community members can help others protect themselves and their families.”

If you would like additional information about preparing for any type of emergency, contact Sedgwick County Emergency Management at 660-5959 or visit the Sedgwick County website at www.sedgwickcounty.org. (Ready to Respond information).

Media: Please announce classes during your weather spots, the day prior to the training. This has been very helpful in the past.
