**SEDGWICK COUNTY HEALTH DEPARTMENT SEEKING THE PUBLIC'S INPUT ON
COMMUNITY HEALTH SURVEY**

(Sedgwick County, Kansas) – Starting today, the Sedgwick County Health Department is launching a quality of life survey, and they need your help! The purpose of the survey is to learn how quality of life, with an emphasis on health, is perceived in Sedgwick County. This survey is part of a larger strategic approach to community health improvement. Health departments across the country are making efforts to achieve healthier communities through community-wide and community-driven strategic planning. This survey is part of four assessments the Sedgwick County Health Department is in the process of executing. In order to increase accuracy of findings, responses from diverse citizens is necessary. Please help promote this survey!

Survey results will help the health department and other health partners identify the biggest areas of concern for Sedgwick County citizens. Further, the health department and other partners can better use their limited resources based on these findings. The brief survey takes approximately five minutes to complete and can be found online at www.sedgwickcounty.org. If you have questions about the survey, please contact: Sonja Armbruster at 660-7335 or sarmbrus@sedgwick.gov.
