# Juvenile Justice System

# JUVENILE JUSTICE AUTHORITY PREVENTION PROGRAMS

# JUVENILE JUSTICE AUTHORITY

## History

In 1997, strategic planning for juvenile justice reform was mandated by the state legislature to develop local juvenile justice programs across Kansas. In 1998, the State of Kansas Juvenile Justice Authority (JJA) provided an extensive amount of training, technical assistance and consultation to 29 Community Planning Teams, (representing the 105 counties) that were to create a local strategic plan. Our local team was well supported by key community leaders and included representation from a broad spectrum of our community.

In November of 1998, the Sedgwick County Community Planning Team completed a five-year strategic plan that addressed local juvenile justice needs, ranging from prevention to secure incarceration. In January of 1999, the Sedgwick County Juvenile Corrections Advisory Board (Team Justice) was established as an advisory board to the Sedgwick County Board of County Commissioners (BOCC). The primary mission of Team Justice is to make recommendations to the Commissioners on matters of juvenile justice, and to keep the needs of juvenile offenders in the hearts and minds of the legislators, government officials, and the entire community.

In 1999, Team Justice worked with Wichita State University to develop a funding application to implement programs that would address the service gaps identified in the strategic plan. In January of 2000, JJA provided funding to implement several prevention, intervention, and graduated sanctions programs in the 18th Judicial District. JJA currently provides funding for four prevention programs and the graduated sanctions programs.

In October of 2010, Team Justice updated the Comprehensive Plan for Juvenile Delinquency Prevention for the 18<sup>th</sup> Judicial District. The plan describes the extent of risk factors identified in the community and how risk factors will be addressed. The plan details how delinquency prevention programs and services related to juvenile offenders can best be delivered.

Team Justice also serves as the Disproportionate Minority Contact (DMC) Committee for Sedgwick County. Sedgwick County has demonstrated a sustained commitment to DMC reduction efforts. The Sedgwick County DMC Initiative incorporates advocacy, alternatives to secure detention, cultural competency training and program development, administrative policy and procedural changes and structured decision making tools. Team Justice utilizes data and analysis to make system improvements and to refine programs. The principles supporting the DMC reduction model in Sedgwick County are: making continuous improvement; collaboration with systems stakeholders and community partners; data driven decisions; putting research into practice; and, accountability and transparency.

In 2007, the Sedgwick County DMC Initiative was nominated and selected as an Office of Juvenile Justice and Delinquency Prevention (OJJDP) DMC-Reduction Best Practice and included on the OJJDP Model Program Guide website. Sedgwick County participated in a 3-year DMC pilot project which concluded in September 2007. At that time, Sedgwick County was selected to participate in the DMC Action Network, a new component of the *Models for Change: Systems Reform in Juvenile Justice Initiative* supported by the John D. and Catherine T. MacArthur Foundation.

The recognition from OJJDP, as well as participating as a Models for Change DMC Action Network partner site (2008 – 2011) shows the success with juvenile justice reform in Sedgwick County. The current efforts at DMC reduction in Sedgwick County emphasize collaboration with multiple systems (police, court, school, mental health, child welfare and community). The Sedgwick County Model involves the Detention Utilization Committee, Team Justice, Cross-systems Policy Team, advocacy and community engagement with the African American Coalition and an annual evaluation with Wichita State University.

Sedgwick County partners with Wichita State University (WSU) for ongoing consultation, research and evaluation. This partnership provides for a continuous quality improvement process. WSU conducts an annual independent evaluation of programs funded through the Juvenile Justice Authority State Block Grant, as well as the Community Crime Prevention Fund. Additionally, a Benchmark 5 Update Report is prepared on an annual basis to support the comprehensive plan. This information is used to provide technical assistance, and guide future funding decisions.

## **Statewide Outcomes**

Statewide outcomes addressed by prevention and graduated sanctions programs funded by the Juvenile Justice Authority:

- Reduce adjudications for serious, violent, and/or chronic crimes among youth age 10-17 years old.
- Reduce the number of youth requiring removal from the family or community for juvenile offending.
- Juveniles leaving juvenile correctional facilities will demonstrate a higher level of knowledge, skills and confidence necessary for successful community reintegration.
- Increase community participation in addressing local juvenile justice needs.
- Increase the accountability of youth within communities.

# D.A.'s JUVENILE INTERVENTION PROGRAM

**Service Provider:** District Attorney's Office and Episcopal Social Services

**Program Description:** The D.A.'s Juvenile Intervention Program is designed to provide diversion / intervention services to two different populations: first-time juvenile offenders (charged with eligible offenses) and students referred to the District Attorney's Office for truancy.

Certain first-time juvenile offenders are provided the opportunity to accept responsibility for their crimes; to receive rehabilitative services and sanctions; to provide restitution or other restorative measures to victims; to alleviate the stigma and lasting effects of a formal adjudication; and, to preserve scarce judicial resources. Certain program participants are also given the opportunity to participate in a Family Group Conference (FGC). These conferences are facilitated by a network of trained volunteer facilitators and may include the offender, the victim, individuals who are part of the juvenile's or victim's support network, law enforcement, and other appropriate community members. The goal of the conference is to devise a plan of accountability, restitution, and competency improvement for the youth in order to address the harm that their crime caused to the victim and the community.

This program also provides intervention services to students who are referred to the D.A.'s Office for truancy. Students are screened for truancy issues and assessed for risks and needs. Interventions are developed based on the needs and risks of the student. The intervention may include referrals to services and will address any areas of criminogenic risk. If completed successfully, the intervention will eliminate the need for a formal Child in Need of Care case.

It is anticipated that in SFY11 approximately 564 juvenile offenders will receive diversion services from this program and approximately 277 students will receive a formal or informal truancy intervention. Approximately 100 of the 564 juvenile offenders served will participate in the FGC process.

**Definition of Success:** Youth are considered successful when all of the program requirements, listed in the client's agreement or contract, have been completed. Completion of requirements are verified by the assigned coordinator, and verified and approved by the diversion committee. The expected timeframe for successful completion of the program ranges from three months to one year, depending on the circumstances of the case, and the risks / needs of the client.

# DETENTION ADVOCACY SERVICE

(Case Management and Legal Services)

**Service Providers:** Kansas Legal Services

**Program Description:** Detention Advocacy Service (DAS) is a legal services program with a case management component designed to address the over-representation of minority and low-income youth in secure detention in the Sedgwick County Juvenile Detention Facility (JDF) and to reduce the likelihood of a juvenile offender spending unnecessary time in detention. These services are offered when the reason for detention presents a reasonable likelihood that this program could expedite release. Kansas Legal Services provides legal representation at all detention hearing dockets for 100% of youth needing counsel (excluding those who refuse or require separate counsel). In addition, Kansas Legal Services provides continued legal representation to the conclusion of the legal process for 100% of youth accepted to the Detention Advocacy Service program who do not already have appointed counsel. This includes youth who are detained at JDF and youth who are detained on a juvenile court matter at the Sedgwick County Adult Detention Facility. The goals of continued legal representation are to provide the client with continuity of services and to obtain the best possible outcomes at the detention, adjudication and sentencing stages.

It is anticipated that in SFY11 approximately 253 youth will receive services from the case management component of this program (traditional case management services provided to 177 youth and short term services provided to 76 youth).

**Definition of Success:** Program completion is determined by the final disposition of the youth's case. Youth receive case management services and/or monitoring of their bond conditions until the final disposition of their case or the youth is terminated from the program early due to not complying with court conditions, bond revocation for a new crime or failure to follow program rules. Youth receiving case management are considered successful when they are engaged and follow the case plan. For youth provided continued legal representation, those who do not return to the Juvenile Detention Facility during the adjudicatory process are considered successful.

# FUNCTIONAL FAMILY THERAPY

**Service Provider:** Youthville Family Consultation Service

**Program Description:** The Functional Family Therapy (FFT) program, provided by Youthville Family Consultation Service, is a Blueprint for Violence Prevention program. FFT is a highly structured family therapy model proven to reduce recidivism for juvenile offenders. The focus is on increasing parental supervision and involvement in a way that matches to the family so the changes will continue over time. The therapy is an average of 12-15 sessions. Referrals will be drawn from the Juvenile Intervention Program, Juvenile Probation, Juvenile Field Services, the Home-Based Supervision Program, and Detention Advocacy Service. The target population is juvenile offenders already on some form of supervision in the 18<sup>th</sup> Judicial District who are at risk of violating the terms of their supervision, or are experiencing a high level of family management problems. It is anticipated that approximately 100 youth and their families will be served in SFY11.

**Definition of Success:** This is an evidence-based program with objectively defined criteria; therefore, success is clearly defined. Clients are successful when they complete the three phases of FFT. The result is improved functioning and reduced recidivism. Most treatment episodes last three to four months, but treatment continues until the family meets their goals even if this takes longer than four months.

# WEEKEND ALTERNATIVE DETENTION PROGRAM

**Service Provider:** Sedgwick County Department of Corrections

**Program Description:** The Weekend Alternative Detention Program is an interactive two day program developed as an alternative to secure detention. The target population is youth age 10-17 that are juvenile offenders or Child in Need of Care (CINC) youth in Sedgwick County who have violated their court orders (ex. truancy, curfew, runaway, positive urinary analysis, etc.). Youth will participate in the program in lieu of serving a sanction in the Sedgwick County Juvenile Detention Facility. The goals for the program are to hold community supervision violators accountable, reduce the use of detention beds by probation violators, increase the likelihood of successfully completing community supervision without the need for further confinement and increase decision making and goal setting skills. The program will include skills instruction, role-playing, group discussions and a physical fitness component. The primary focus will be on skill building techniques to improve competency and prevent a re-offense or probation violation. Topics shall include: drug and alcohol awareness, job skills, decision making, role playing scenarios, choices and consequences, values, situational analysis, goal setting and peer group involvement. Written policies and procedures are in place to guide discipline for non-compliance issues using graduated steps up to and including removal from the program. It is anticipated that in SFY11 approximately 300 youth will be served.

**Definition of Success:** Youth are considered successful if they participate in all aspects of the two day course.

*Sedgwick County...  
working for you*

# JUVENILE JUSTICE AUTHORITY GRADUATED SANCTIONS PROGRAMS

# JUVENILE FIELD SERVICES

**Service Provider:** Sedgwick County Department of Corrections

## **Program Descriptions:**

**Juvenile Case Management (JCM):** JCM provides supervision, case management and placement to offenders. Offenders served include those in state's custody, and those directly committed to state Juvenile Correction Facilities (JCFs). The offenders may be placed in the community, in residential treatment facilities, and in JCFs. Offenders are supervised according to a level system. Contacts with employers, educators, treatment providers and the offender are components of supervision, as are additional services including electronic monitoring, urinalysis testing, DNA testing and registration, job readiness training, surveillance and independent living services. Emphasis is placed on public safety, preventing future offenses, education and enhancing positive family impact on the offender's behavior.

**Conditional Release (CR):** CR provides supervision and case management for youth returning to the community from juvenile correctional facilities on conditional release. Juveniles served by this unit are placed in their family homes, detention, resource homes, residential treatment facilities, independent living programs and juvenile correctional facilities.

**Juvenile Intensive Supervision Program (JISP):** JISP is an intensive community-based program providing services to offenders at risk of entering state's custody and to those returning to the community on conditional release from a juvenile correctional facility. Offenders are supervised according to a level system. Frequent contacts with employers, educators, treatment providers and the offender are characteristic of intensive supervision, as are additional services including electronic monitoring, urinalysis testing, DNA testing and registration, surveillance and job readiness training. Emphasis is placed on public safety, preventing future offenses, education and enhancing positive family impact on the offender's behavior.

*Sedgwick County...  
working for you*

# JUVENILE INTAKE AND ASSESSMENT CENTER (JIAC)

**Service Provider:** Sedgwick County Department of Corrections

**Program Description:** JIAC provides a 24-hour a day program serving youth in contact with one of the 22 law enforcement agencies in Sedgwick County. Most participants are brought in by law enforcement because they are juveniles suspected of illegal behaviors. JIAC's goal is to help youth avoid reoffending and getting more deeply entrenched in the juvenile justice system by providing effective intake booking, assessment and referral services. They achieve this goal by performing intake and assessment activities and by making appropriate referrals for youth and their family. The intake and assessment activities typically include completion of the Intake Questionnaire, the Massachusetts Youth Screening Instrument, Version 2 (MAYSI-2) to assist in identifying youth at admission who might have special mental health needs and the Sedgwick County Youth Risk Screening Instrument (JIAC Brief Screen) that provides preliminary risk levels related to the following areas: history of antisocial behavior, school and/or work situations, peer relations, family circumstances, leisure and recreation activities, antisocial personality traits, antisocial thinking, and the current nature of any substance abuse issues.

# SEDGWICK COUNTY COMMUNITY CRIME PREVENTION PROGRAMS

# SEDGWICK COUNTY COMMUNITY CRIME PREVENTION PROGRAMS

## History

The Sedgwick County Commission established the Community Crime Prevention Fund in 1998, around the time the jail was being expanded. As the cost figures for the jail expansion began to grow the Commission made a commitment to target local mill levy funds annually to prevent youth from entering the justice system rather than continue to spend millions and millions of dollars to incarcerate individuals. Sedgwick County has made available approximately \$895,000 for crime prevention grants for 2011.

Funds are distributed through a competitive bid process. Agencies submit proposals for programs that address one or more of the priority risk factors. The Sedgwick County Grant Review Workgroup reviews the proposals and makes recommendations to the Board of County Commissioners. Funded programs are required to establish outcomes and then are monitored regularly to determine their success in achieving the outcomes. In order to ensure the desired crime prevention goals, Sedgwick County has begun over the last few years to target more funding to programs considered evidence-based, i.e. tested, effective programs (such as Blueprint for Violence Prevention Model programs) and to utilize the Risk-Need-Responsivity Model for intervention.

*Sedgwick County...*  
*working for you*

# AGGRESSION REPLACEMENT TRAINING

**Service Provider:** Episcopal Social Services

**Program Description:** The Aggression Replacement Training Program at Episcopal Social Services Venture House will offer 12 sessions for FY 2011. Each program session runs eight weeks with classes meeting twice per week. Each session will serve between 10 and 12 offenders ranging in age from 12 to 17 years. The ART Program is staffed by a Senior Facilitator, Co-Facilitator and Program Coordinator. The Sedgwick County Crime Prevention grant for FY 2011 will fund an expansion of the existing ART program, adding an additional time and serving 60 to 75 additional participants.

**Definition of Success:** Youth who attend all classes, complete all homework assignments and participate in the program discussion will successfully complete the class. Youth will be revoked for consistently failing to attend, not performing on homework assignments or behavioral issues.

## **BIG BROTHERS BIG SISTERS**

**Program Description:** Big Brothers Big Sisters pairs at-risk youth with caring adult mentors who spend an average of 2-3 hours per week, 3-4 times per month together. The program screens volunteers and matches them with youth based on the needs of the youth and the abilities and interests of the adult volunteer, as well as parental preferences and program staff capacity. A case manager provides support and monitors the match for its entire life. The program is a Blueprints for Violence Prevention evidence-based model program. Big Brothers Big Sisters has been a prevention grant recipient since 1998. The grant funds serve approximately 220 youth per year.

**Definition of Success:** A closure is considered successful if it was amicable and mutually agreeable between the youth and mentor; usually the child graduates from high school or doesn't feel the need for a mentor, or the match closed for means beyond the control of the program but the needs of the child were being met at the time of the closure.

**BIG BROTHERS BIG SISTERS**  
*of Sedgwick County*

# CITY LIFE WORK PROGRAM

**Service Provider:** Youth for Christ

**Program Description:** Youth for Christ operates the “City Works” job program, a comprehensive, faith-based gang intervention program based on the hugely successful Homeboy Industries model program from California. The City Works program began operations in January 2009. City Works is a local job training and employment program, as well as, a community service work provider targeting at-risk youth who have been in trouble with the law. The mission of the program is to teach young adults the skills needed to become employable and independent, and to place them in meaningful jobs, careers or entrepreneurial enterprises. The grant funds serve approximately 32 participants per year.

**Definition of Success:** Youth are considered successful if they meet at least four out of six of the following: 1) Complete at least 20 hours of community service work and 100 hours of paid employment (on-site and/or off-site); 2) No arrests during program participation; 3) Decreased risk assessment scores; 4) Improve work skills; 5) Advance and/or complete education, including vocational and/or technical training; 6) Find meaningful employment.

## COMMUNITIES IN SCHOOLS

**Program Description:** Communities In Schools (CIS) operates school sites to connect children to needed resources, thereby improving the likelihood of school success. A CIS site coordinator works to connect families/youth with services, either by bringing in services or making referrals for community-based services. The specific services provided at the school site are based on the presenting problems at the school in question. There is considerable variation from site to site. The Sedgwick County Community Crime Prevention grant funds work at Cooper and Oaklawn Elementary schools, Derby Six Grade Center and Derby High School in the Derby school district; and, Jefferson Elementary in the Wichita school district. Services at Derby High School are funded in cooperation with the Derby School District. CIS is ranked as a promising program by OJJDP Title V. Some of the many services offered at the school site are evidence-based including Life Skills Training and PATHS, which are both Blueprints for Violence Prevention Model Programs. Communities In Schools has received a prevention grant since 1998 and serves approximately 350 youth per year.

**Definition of Success:** Youth attaining at least 80% of their goals on their individual service plan by the end of the school year are considered successful.

# EDUCATION, TRAINING AND EMPLOYMENT PROGRAM

**Service Provider:** Kansas School for Effective Learning (KANSEL)

**Program Description:** The Kansas School for Effective Learning (KANSEL) program includes General Education Diploma (GED) preparation, job training and placement services. The program includes academic instruction, computer skills training, work experience, employment search and job placement assistance to youth who have dropped out of school and are seeking assistance in meeting the requirements of local employment. A JOBSTART component was added five years ago to strengthen occupational skills for specific jobs and training-related support services. JOBSTART was formerly considered an evidence-based program by Communities That Care; it strengthens protective factors of healthy beliefs and clear standards, opportunities to contribute, increased skills, and recognition for contributions. KANSEL has received a prevention grant since 1998 and serves approximately 300 youth per year.

**Definition of Success:** Youth who have dropped out of high school and attending KANSEL have varying goals. Obtaining a GED is the goal for some youth, while others intend to improve their basic academic skills so they can obtain employment. KANSEL considers youth successful if they meet their individually identified goal when they exited the program whether that is to improve educational skills, obtain a GED, enter postsecondary education or obtain employment.

# GIRL EMPOWERMENT PROGRAM

**Service Provider:** Mental Health Association

**Program Description:** Mental Health Association’s Girl Empowerment Program is based on the Girl Circle curriculum, a promising OJJDP program. The curriculum challenges faulty cognitions and perceptions about oneself. Teenage girls assessed as moderate to high risk attend 12 – 20 group sessions, are invited to mother (mentor)/daughter events, given opportunities to participate in community service, receive assistance with job preparation and college exposure and other services as needed. Workshops include information on the dangers of “sexting,” exchanging inappropriate information online, responsible usage of networking websites, and other issues associated with modern technology. The FY 2011 grant will expand the program by 200 participants (to a total of 400). Fidelity to the Girl Circle model will be maintained through use of the evaluation tool kit and check off list of lessons to be taught included with the curriculum. Additionally, the program director randomly observes sessions at each site and reviews attendance lists and check off lists during bi-monthly staff meetings. A comprehensive instructor’s manual provides guidelines for implementing the program, as well. Both the Director and Coordinator remain in contact with the program developer and consult as needed regarding implementation, best practices and expansion of existing services. GEP staff will include a director, a coordinator and two part-time facilitators.

**Definition of Success:** Participants completing a minimum of 12 sessions/lessons and demonstrating an improvement in social supports are considered successful.

# LEARNING THE ROPES PROGRAM

**Service Provider:** Higher Ground

**Program Description:** Higher Ground offers the Learning the Ropes program to intervene with use/abuse of alcohol and illicit drugs. Services include diagnosis and referral for substance abuse, alcohol/drug information, anger management, experiential therapies (wilderness and challenge courses), comprehensive case management services, outpatient treatment, continuing care counseling, family counseling and bilingual services. There are two levels of service funded through this grant. Level 2 services include substance abuse treatment services (8 hours or less per week), and are targeted to youth with substance abuse issues. Level 3 services are intensive versions (9+ hours weekly) of Level 2 services. The wilderness/ropes course is a confidence-building component experienced by all youth in Level 2 and 3 services. No youth receives the wilderness/ropes course component alone. Higher Ground uses the parent training curriculum, Parents Who Care, which was previously rated as evidence-based but no longer carries that rating. Higher Ground has received a prevention grant since 1998 and serves approximately 185 people per year (85 youth and 100 parents).

**Definition of Success:** A successful completion is defined as meeting the following discharge criteria: satisfactorily completed all program assignments, demonstrated an understanding of addictive disease, maintained abstinence for a minimum of 30 days, made satisfactory progress towards treatment goals and no indication of a need for further treatment.

# PATHS FOR KIDS

**Service Provider:** Mental Health Association

**Program Description:** The Mental Health Association of South Central Kansas' (MHASCK) PATHS for Kids program is designed to promote emotional and social competencies and reduce aggression and acting out behaviors in elementary school aged children. The PATHS curriculum covers five areas (conceptual domains) of social and emotional development including self-control, emotional understanding, self-esteem, peer relations, and interpersonal problem-solving skills. PATHS sessions are approximately 30 minutes in length and are conducted in seven selected Title I schools and two community locations. In FY 2010 PATHS was delivered in two separate patterns: 1) integrated into a traditional classroom setting; and 2) more targeted sessions for youth demonstrating problem behavior. Children may be referred for services through Communities In Schools, the Kansas Department of Social and Rehabilitation Services, COMCARE and the Juvenile Intake and Assessment Center. Staff providing PATHS services have cross-cultural capacity including the ability to offer the program in Spanish. PATHS is an evidence-based Blueprints for Violence Prevention program. Fiscal year 2005 was the first year of funding for the PATHS for Kids program, which serves approximately 850 youth during the school year.

**Definition of Success:** Successful completion is defined as attending at least 12 sessions and demonstrating mastery of the skills taught.

# TARGETED OUTREACH PROGRAM

**Service Provider:** Boys and Girls Club

**Program Description:** The Boys and Girls Club Targeted Outreach Program (TORP) is an academic program serving youth suspended or expelled from school. During SFY10 all of the youth served through the program were expelled from school for a full year. Most of the participating youth were expelled for violating school districts' "zero tolerance" policies; generally the violations include possession of drugs or weapons on school property, fighting, or hitting a school staff person. The goal of TORP is to maintain these students in a school program during their expulsion, increasing the likelihood of eventual return to school and graduation. TORP is classified as a non-accredited private school. TORP works with the schools to ensure returning students receive credit for work done while in the program. Once a student returns to school, TORP case managers follow up with the youth for two semesters to assure a smooth transition back to public school. TORP is not considered an evidence-based program. Boys and Girls Club has been a prevention grant recipient since 1998. The program serves approximately 70 youth per year.

**Definition of Success:** A successful completion is achieved when a youth completes the in-house portion of the program, returns to school and remains in school and participates through the end of the two semester follow-up.

**BOYS & GIRLS CLUBS**

# TEEN INTERVENTION PROGRAM

**Service Provider:** Episcopal Social Services

**Program Description:** Episcopal Social Services offers the Teen Intervention Program (TIP) to address the needs of first time offenders. Youth committing minor misdemeanor offenses (including shoplifting) are served by the program. Occasionally, youth with more serious problems are referred by the Office of the District Attorney. This restorative justice program is offered over an eight week period with content dealing with accountability, issues of community impact, and skill building to avoid future legal problems. Beginning in SFY10, the program implemented the Thinking for a Change curriculum, which is an evidence-based practice. The Teen Intervention Program has received a prevention grant off and on since 1999 and serves approximately 200 youth per year.

**Definition of Success:** Success is defined as successful completion of the ten-week program with mastery of the skills taught.
