The County Appraiser is required to determine the value of motor vehicles and place them within statutorily prescribed classifications. The value of a motor vehicle is multiplied by the assessment rate of $20 \%$ to produce the tax value. The product is then multiplied by the "County average tax rate" to produce the amount of tax due. The County Treasurer is required to collect the tax and distribute it among all taxing subdivisions, including the State, according to a formula based on the proportion each taxing unit levies compared to the total amount levied by all taxing units.

Sedgwick County has pledged to use one half of the tax proceeds to reduce the property tax support otherwise required for the General Fund and one half to finance road and bridge projects.

Compensating Use Tax is a tax paid to out-of-state retailers on goods and merchandise purchased from other states and used, stored, or consumed in Kansas on which no sales tax was paid. It is also due if the other state's rate is less than the Kansas rate of $5.3 \%$ paid at the time of purchase. The tax protects Kansas businesses from unfair competition from out-of-state retailers who sell goods either tax-free or at a lower tax rate. It also assures fairness to Kansans who purchase similar items in Kansas and pay Kansas sales tax. This use tax compensates for the lack of sales tax paid at the time of purchase. Use tax is due whether the property is shipped into Kansas or picked up in another state and brought back to Kansas. It applies only to tangible personal property, labor services are not subject to use tax. Like sales tax, compensating use tax is based on the total cost of the goods purchases, including postage, shipping, handling, or transportation charges.

According to state law, $3.5 \%$ of the total retail sales and compensating use taxes collected by the State each year is to be credited to the State's County City Revenue Sharing Fund. For the past several years, the State Legislature has chosen not to appropriate the full amount. Allocations are made to the counties each year in two equal payments on July 15 and December 15 . The allocation is based $65 \%$ on the population of the County and $35 \%$ on the County's assessed valuation. The County Treasurer redistributes $50 \%$ of the total among the cities in the County in the proportion that their populations represent the total. The County's $50 \%$ share is deposited in the General Fund.

The State's Local Ad Valorem Tax Reduction Fund (LAVTR) is to be credited with $4.5 \%$ of the total retail sales and compensating use taxes collected statewide. For the past several years, the State Legislature has chosen not to appropriate the full amount. The appropriation is distributed to counties in two equal payments on January 15 and June 15 annually. Sixty-five percent of the fund is allocated to counties on the basis of their population as reported in the last agricultural census. Thirty-five percent of the fund is distributed on the basis of the equalized assessed tangible valuation as of November1 of the proceeding year. The County Treasurer is requires to divide the LAVTR payment among all taxing subdivisions in the County, excluding school districts. The percentage received by these subdivisions is calculated by multiplying the total tax rate of the subdivision by its assessed valuation and then dividing that product by the sum of all products of all eligible subdivisions.

State distributions of the County share of motor fuel tax collections and a share of motor carrier property tax collections are made on January 15, April 15, July 15, and October 15. The original fuel tax money (13 cents per gallon) and the motor carrier property tax money are distributed based on a two-factor formula: $1 / 2$ on license fee collections and $1 / 2$ on miles of travel within a county. The increased gas tax revenue produced by legislation effective July 1, 1989, added a third factor, public road mileage within a county. Sedgwick County must credit $50 \%$ of the share to the Public Services Highways Fund (206), and distribute the remaining $50 \%$ among cities within the County. About $15 \%$ of the $50 \%$ retained by the County is distributed to townships.
