On the recommendation of Carol Bevelhymer, on behalf of Fleet Management, Irene Hart moved to **accept the low bid from Lubbers Ford in the amount of \$152,798.40**. Jennifer Dombaugh seconded the motion. The motion passed unanimously.

Note: The estimated savings is \$50,000.00 per unit; 21 units will be remounted over time. It will vary from unit to unit based on the number of counter tops and doors that have to be replaced. These units will be used up to 125,000 miles; they spend more time sitting idle than on the road, with an enormous amount of weight to bear. The old chassis will be disposed of through GovDeals.com.
