13. Mineral Oil	\$60.00 ea \$120.00
Total	\$41,372.00

On the recommendation of James McComas, on behalf of the Fire District, Shawn Henning moved to **accept the bid from 1st Due Emergency Response Solutions LLC for an initial purchase of \$41,372.00, and establish and execute contract pricing for one year, with two one-year options to renew.** Jennifer Dombaugh seconded the motion. The motion passed unanimously.

Note: A standard was created for this equipment by the fire department 3 years ago resulting from a lengthy bid process where award was made based on product demonstrations, quality of product, ease of use by firefighters, reference checks and price. The equipment utilizes a 360 degree universal deadman's handle. This deadman's handle allows for operation of the tools in any position (left or right handed) that the firefighter may be placed in. The Fire Department currently has six units in operation and is requesting purchase of 2 additional units (replacing 15 year old equipment) in order to make all equipment compatible and interchangeable.

The bid was submitted to five authorized Holmatro dealers; however due to manufacturer territorial rights only one dealer submitted a response. The initial purchase is for 2 complete units. The pricing was broken into components so that replacement parts pricing could be established in the event that it should be needed in the future.
