COUNTY PROFILE

History

Originally a camping ground of the Osage and Wichita Indian tribes, Sedgwick County, Kansas is thought to be a place of discovery for such explorers as Francisco Coronado and Kit Carson. The earliest European settler to the region was M. DuTissenet, a Frenchman operating under the direction of the governor of Louisiana, in 1719. DuTissenet brought with him soldiers, traders and hunters that soon populated and transformed the region from prairie to a land of opportunity.

Sedgwick County was officially established nearly 150 years later on February 26, 1867 and bears the name of Civil War hero Major General John Sedgwick of the Union Army who was killed during the battle of Spottsylvania Courthouse in Virginia. After an initial failed attempt at establishing an official county government, the Governor of the State of Kansas appointed three Commissioners to aid in the effort. In April of 1870, the first county officials were elected and the county seat of Wichita was chosen.

Geography

Occupying 1,009 square miles of land in South Central Kansas, Sedgwick County falls within the borders of the Arkansas River Lowlands. It is noted for its extreme flatness, its highest point only 1,540 feet above sea level. The County’s lowest point, approximately 1,220 feet above sea level, occurs along the southern border where the Arkansas River leaves the County.1 Sedgwick County’s largest city is Wichita which is located along Interstate 35 with service areas to Interstate 135, U.S. 54 and various other highway projects.

Sedgwick County’s population growth has consistently outpaced the State of Kansas’ population growth since the 1980’s.

Over time, it is expected that the percent of the population over the age of 65 will increase.

Amongst the population that is age 25 and over, 87.0 percent have at least a high school diploma, if not some type of experience in higher education. This number exceeds the national average. Approximately 17.0 percent of the population has at least a bachelor’s degree and 9.0 percent of residents report having some type of graduate or professional degree.

A recent Sedgwick County initiative is the development and growth of technical education and training. In March 2008, Sedgwick County broke ground for the National Center for Aviation Training. Facing a future shortage of skilled aviation workers, this world-class aviation training facility is a critical step to keep Kansas’ aviation industry globally competitive. Sedgwick County’s ability to train workers locally will enhance the community’s ability to keep aerospace manufacturing jobs in Kansas.

In addition to the National Center for Aviation Training, there are more than 10 institutions of higher education located in Sedgwick County. Wichita State University, Friends University, Newman University, the Wichita Area Technical College, and the University of Kansas School of Medicine - Wichita, all have main campuses in the County, while seven other colleges and universities have chosen to locate branch campuses within the County.

Transportation

Sedgwick County has multiple transportation options available to residents, businesses, and travelers. If traveling by road, Interstate 35, the only Midwest interstate highway to connect Canada, the United States, and Mexico, runs directly through Sedgwick County providing an optimum north/south route for those traveling and for businesses importing/exporting goods out of Kansas. For those wishing to travel or ship goods east or west from Sedgwick County, two primary options exist. Interstate 70 lies 90 miles north of Wichita, while Interstate 40 lies approximately 150 miles to the south. In turn, truck transportation establishments are prevalent in Sedgwick County.

Air transportation is another viable option. Although under the jurisdiction of the City of Wichita, Sedgwick County is home to Wichita Mid-Continent Airport, the only commercial airport in south-central Kansas. The facility currently services four major cargo carriers and nine major passenger airlines including: Air Tran Airways, Allegiant Air, American Airlines, Continental Express, Delta Airlines, Frontier Airlines, Northwest Airlines, United Airlines, and US Airways. These airlines offer non-stop service to 13 different destinations across the United States, including Las Vegas, Orlando, Minneapolis, Dallas/Fort Worth, Chicago, Los Angeles, Memphis, Denver, Atlanta, Phoenix, Detroit, Houston and St. Louis.

Due in part to Sedgwick County’s comprehensive network of highways and roads in both the rural and urban areas, average daily work commute times are lower than many regional comparison counties. Sedgwick County’s average daily work commute time is 18 minutes, compared to 19 minutes in Oklahoma County, Oklahoma, 20 minutes in Johnson County, Kansas, and 23 minutes in Jackson County, Missouri. In turn, the Sedgwick County workforce spends less time commuting to work, which results in less spent on fuel and other vehicle related expenses.

From 2004 to 2006, the average daily inmate population in the adult detention facility increased 6.9 percent and continued growth is expected.5

According to the Kansas Bureau of Investigation, the Sedgwick County crime index offenses per 1,000 population increased slightly over the past four reported years, from 57.3 offenses in 2002 to 59.3 offenses in 2006. ECONOMIC OUTLOOK

Employment

The United States Department of Labor reported that the average 2006 Civilian Labor Force for Sedgwick County was 245,576 residents, an increase of 1.4 percent from 2005. Of those who are eligible for employment, approximately 95.3 percent (234,097) of individuals were employed in 2006. Sedgwick County’s unemployment rate for 2007 was 4.2 percent, slightly lower than the U.S. unemployment rate of 4.6 percent.

Property Values/Tax Payers

One sign of the economic strength of Sedgwick County is the continued growth in property values. From 2000 to 2007, the estimated actual value of taxable tangible property increased annually by 5.8 percent, from $19.5 billion to $28.9 billion, or 3.0 percent when adjusted for inflation. The increased property value is beneficial for property owners, but also for governments who collected taxes based on these values.

In Sedgwick County, residential property accounts for the largest percentage (59.2 percent) of the total assessed value of real property. The second largest is commercial...
property, comprising 37.0 percent of the County’s total assessed value of real property. Sedgwick County’s large percentage of residential property shows that individuals and families recognize that Sedgwick County is a growing community where they can purchase a home and establish roots, while the large portion of commercial property shows that the County’s business environment is also favorable.

Another economic indicator is the total assessed value of the top five taxpayers compared to the total assessed valuation of the County. A concentrated property tax base can be detrimental to a community in times of economic downturn, especially if a jurisdiction’s top taxpayers are in the same industry. Sedgwick County’s top five taxpayers comprised 6.2 percent of the County’s total assessed value. Also, the top five taxpayers are diversified, representing aerospace manufacturers, a utility and telephone company, and a medical entity.

A number of Sedgwick County’s business establishments are in the manufacturing industry. In fact, the largest employers in Sedgwick County are aerospace manufacturers. According to a Milken Institute Study, Wichita has the highest concentration of aerospace manufacturing employment and skills in the nation. Wichita is also known as the “Air Capital of the World,” and is home to four large aircraft manufacturing plants, each of which heavily impacts the overall economy of Sedgwick County.

### Industry

Sedgwick County is home to nearly 12,000 business establishments. Between 2000 and 2005, employer establishments in the County increased annually by 0.34 percent, which is lower than the annual growth rates of employer establishments in Shawnee County (0.48 percent) and Johnson County, Kansas (1.5 percent). In comparison, growth rate of the State of Kansas employer establishments are comparable to Sedgwick County at 0.33 percent. Overall, while there is growth in Sedgwick County’s business establishments, the growth is below that of comparable Kansas counties.

### Retail Trade

Retail trade is expected to experience growth in 2008, continuing to rebound from small employment losses in 2005 and 2006. The Wichita Metropolitan Statistical Area has numerous retail centers, including New Market Square, the Waterfront, and Bradley Fair that encourage industry growth. Additionally, inflation-adjusted taxable retail sales regained their pre-recession levels in 2007 and are expected to increase 1.6 percent in 2008.7

The Center for Economic Development and Business Research notes many expansions in the health industry in its Fourth Quarter 2007 E-Connection, some of which are listed below:

- In March 2007, the Catholic Diocese of Wichita and Via Christi Senior Services announced the completion of a $1.2 million Catholic Care Center expansion.
- Developers announced the construction of a $47 million Lillie Medical Park in West Wichita.

The home ownership rate in Sedgwick County for 2006 was 67.6 percent, up from 65.2 percent in 2005. While home ownership rates have been on the rise, home vacancy rates have been mixed. In 2002, vacancy rates in Sedgwick County were 1.2 percent, but increased to 3.4 percent in 2005. In 2006, vacancy rates decreased back to 1.2 percent. These statistics show that the number of households owning homes in Sedgwick County continues to rise, helping to keep the vacancy rate at a minimal level.
