**Gas Line Utility - ONEOK**

ONEOK has a gas line that crosses 135<sup>th</sup> St. W. near Sta. 281+00 as shown on the construction plans. According to ONEOK representatives the gas line is approximately 36 inches below the existing ditch flow lines. Final grading plans in this area should keep the ditch flow lines at approximately the same elevation as existing, therefore coordinating with ONEOK so that they can construct a concrete apron over this gas line is no longer necessary. However, ONEOK has requested to be notified at least two (2) working days in advance of grading operations in this area so that a representative may be onsite. Contact Stan Bowen at (316) 772-2628 or Dennis Hertle at (316) 772-2628.
