**REQUEST FOR PROPOSAL**  
**#14-0018**  
**EMPLOYEE MEDICAL AND PHARMACY BENEFITS**  
**Addendum #1**

April 7, 2014

The following is to ensure that vendors have complete information prior to submitting a proposal. Here are some clarifications regarding the Employee Medical and Pharmacy Benefits proposal.

**Questions and/or statements of clarification are in bold font, answers to specific questions are italicized.**

**1) What does SVRP stand for?**

*Answer: SVRP stands for Special Volunteer Retirement Program. During 2011, the County adopted a retirement program to reduce its workforce. This was done as a cost saving measure in response to the decline in the economy. Eligible employees were given the option to participate in medical insurance for five years or until the retiree reaches the age of 65. The County continues paying the current employer portion of the premium consistent with the contribution for active employees. If during the five years the employee reaches age 65, the benefit will transition to a single Medicare supplemental plan.*

**2) For those retirees that have a COBRA start date next to them, are they currently on both COBRA & retired?**

*Answer: Yes.*

**3) Under the Current Medical & Pharmacy Plan, it states 132 retired employees chose the POS/HMO and nine retired employees chose the PPO plan, can I assume these participants are covered?**

*Answer: Yes.*

**4) Can I assume, that the participants on the census that have a start date of COBRA, are still COBRA active?**

*Answer: Yes.*

**5) Are you satisfied with the following: Current network, administrator, fully-insured design, etc.?**

*Answer: We are interested in hearing from the market.*

**6) Do you have access to both hospital systems under your current arrangement with Coventry today? If so, what is the utilization split between systems on a percentage basis?**

*Answer: Yes, both hospital systems are under Sedgwick County's current arrangement with Coventry. Please refer to the attached HCUR 2013 report for utilization.*

**7) Do you require access to both hospital systems on an in-network basis?**

*Answer: To match the current plan as closely as possible, both hospital systems should be included in your quote. Additional cost savings alternatives are at the carrier's discretion, but any changes from the current contract should be clearly noted as outlined in the RFP.*

**8) Would you consider a partner that does not have an administrative office in Wichita?**

*Answer: Yes. A carrier does not have to have an administrative office in Wichita, KS to be considered for this request for proposal.*

**9) What has prevented you from moving from insured to ASO up to this point?**

*Answer: Sedgwick County was previously self-insured. Market conditions caused us to make the decision to be fully insured the last several years.*

**10) Does your POS plan have out-of-network benefits? In looking at the benefit summary, it appears the benefits are listed in two columns: PCP and self-referral. I could not tell if the self-referral benefits are the same if a member were to go out-of-network. What I am trying to determine is if this plan acts more like an HMO where a member has no coverage/benefits out-of-network or if it acts more like a PPO where a member does have coverage if they go out-of-network. Generally a POS plan has out-of-network benefits, however, I could not tell that for certain from the benefit summary included with the RFP.**

*Answer: On the POS plan a member can access care from outside of the plan's network. Those services will be covered at the self-referral option level. However, the health plan will only pay up to the allowed amounts. The member will be responsible for any difference between Coventry's allowed amounts and the billed charges.*

**11) What does the latter part of this statement mean? "Provide in-network pricing for covered persons who live out of state, but in other networks maintained by company." Does this mean there is a regional network or do you have direct contacts currently set up that we would need to coordinate with?**

*Answer: Currently, Sedgwick County utilizes a regional network for the majority of their population through Coventry and has a national network access plan for those outside of the local service area that receive Coventry's National Network on the PPO plan.*

**12) Who is currently providing PBM services for the county?**

*Answer: Express Scripts*

**13) Is the county currently using a limited prescription drug provider network?**

*Answer: No.*

**14) Is there an extended supply network in place?**

*Answer: Yes. Coventry offers a 90-day retail network in addition to Express Scripts Mail Order.*

**15) Can we get a more detailed description of prescription benefits? Quantity limits, preferred list, etc.?**

*Answer: Yes, please see the attached documents for detailed prescription benefits.*

**16) Does the current PBM provide prescription drug rebates?**

*Answer: No. Sedgwick County is fully insured with Coventry and does not receive prescription drug rebates.*

**17) Provide detailed explanation on Tier 1A formulary, Tier 1B formulary, Tier 2 formulary and Tier 3 non-formulary. What types of drugs are in each category?**

*Answer: Please see attached formulary lists.*

**18) Does the county view the Rx \$0 co-pay as part of the VBBD management program?**

*Answer: Sedgwick County does not currently view this as a VBBD.*

**19) Is smoking cessation managed as part of the Rx program and is the PBM charging co-pays for these services?**

*Answer: Chantix and Bupropion Ext Release 150 mg are available at \$0 co-pay. Please refer to attached Rx Rider for additional detail.*

**20) Full listing of Rx claims for the most recent 6 months including:**

- 1. Full NDC**
- 2. Retail/Mail indicator**
- 3. Full NABP**
- 4. Quantity**
- 5. Days Supply**
- 6. Fill date**
- 7. Pharmacy usual and customary charge**
- 8. Compound indicator**

*Answer: The requested information is attached.*

**21) Referring to “Question No. 62. Describe the re-pricing process.” Are they asking how we physically process our claims and impose write-offs on our providers based on the maximum allowances or are they asking how we reexamine our maximum allowances each year?**

*Answer: The intent of the question was to obtain how carriers process claims and impose write-offs based on the maximum allowances.*

**22) Referring to “Question No. 68. Does your organization offer any non-traditional plan designs that promote member consumerism?” Can you be specific on what kind of programs you’re suggesting? Is the county interested in moving toward a HRA or HSA incentive program?**

*Answer: Sedgwick County is open to reviewing HRA and HSA benefit designs. Sedgwick County would like the markets to respond with any options they feel may be of interest to Sedgwick County.*

**23) Please provide a description of the current VBBD program and how does it tie into the benefit plan design?**

*Answer: Sedgwick County does not currently view their benefit plan as a VBBD program.*

**24) Does the county currently have a wellness vendor and if so describe the services provided?**

*Answer: Currently no wellness vendor is utilized. In previous years (ending in 2013) Sedgwick County has utilized screenings and a paper HRA through their carrier (carrier outsourced to local provider).*

**25) Regarding electronic enrollment, does the county work with an eligibility vendor to transmit 834 eligibility files? Would the county be open to using an enrollment platform provided by the health plan carrier?**

*Answer: No, the county does not work with any vendor to transmit this type of file. We are open to the possibility of using an enrollment platform provided by the carrier, more information about the vendor’s platform will be needed.*

**26) Will the county keep their current wellness program or would you like for us to include our wellness program in the proposal?**

*Answer: Sedgwick County currently utilizes the wellness services available through their fully insured medical carrier. Carriers may include their own wellness services in their proposals. The available programs, sample materials and reports, performance guarantees and additional pricing related to the wellness services need to be clearly identified in the proposals.*

**27) The current POS offers two benefit co-payments for office visits – Option 1 \$20.00 co-pay and Option 2 \$40.00 co-pay. “The co-pay is determined by PCP designation.” Please provide briefly how the PCP is designated, are they carrier designated?**

*Answer: PCP Option 1 and Option 2 vendors are designated by the carrier.*

**28) Can we identify how many claims were paid at \$20.00 and those paid at \$40.00?**

*Answer: \$20.00 co-pays had 7,311 claims and \$40.00 co-pays had 6,186 claims.*

**29) Please provide the large loss with diagnosis for the most recent two periods, 1/13-12/13 and 1/12-12/12. The proposal notes that claims data is on page 6, but our underwriter is in need of detailed large claimant dollar amounts and diagnosis that match the above two periods.**

*Answer: Please refer to the attached HCUR reports for claims information.*

**30) The ASO fee exhibits both read 2014. Can you please confirm the period/dates that the exhibits should read?**

*Answer: Please complete one Fee Schedule per year 2014, 2015 and 2016. Attached please find fee schedules provided in Word with all three years – 2014, 2015 and 2016 headings.*

**31) Regarding Rx claims – the MLR reports don't have a separate column for Rx, just Caps and FFS. Can you please verify that we do have the Rx claims information and that they are included within the FFS claims?**

*Answer: Yes, Rx is included in the MLR reports with the medical claims.*

**32) Can you please provide details regarding the current wellness programs? Please provide details on future plans for the wellness program to include employee engagement information, incentive information and additional information that will allow us to propose an equivalent program.**

*Answer: Sedgwick County would like to review carrier capabilities and future plans for wellness will be discussed with the selected vendor.*

**33) Does Sedgwick County's current wellness carrier provide a wellness fund? If yes, how much and what is it used for?**

*Answer: No, however, Sedgwick County is open to reviewing creative approaches to wellness and budgeting.*

**34) If you think back to where you were three years ago prior to your last Request for Proposal, what have been the greatest achievements?**

If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

**36) If you look forward three years, can you paint the picture of what that would look like? What would your peers be saying about you? What would the executive office (County Executive/Council) be saying about you?**

*Answer: Sedgwick County acknowledges that this is a topic that should and will be discussed with the selected vendor. However, this information was not requested as part of the RFP. If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

**37) Who do you consider to be in your peer group? When you want to see who are using best practices, who do you look to/reference?**

*Answer: Sedgwick County would like to review data that sources Municipalities, the local market and employers of similar size.*

**38) We hear many large private sector employers describe their role in employee benefits as changing from simply providing benefit choices and funding for those choices to a role of using benefits to improve employee engagement, productivity and healthy choices. How does this view translate to Sedgwick County?**

*Answer: Sedgwick County acknowledges that this is a topic that should and will be discussed with the selected vendor. However, this information was not requested as part of the RFP. If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

**40) The last RFP released by Sedgwick County was focused on finding a partner who could collaborate with the county to build a “Value-Based” benefit program. *Answer: Value Based Benefit Design is not a current strategy that the county is utilizing and will not be exploring under this RFP.*

**41) Which tools, techniques and technology in place today are most necessary to support your current health strategy? Which additional or improved tools, techniques and technology are most needed to successfully execute your forward-looking health strategy?**

*Answer: Sedgwick County would like access to timely data and ad hoc reporting as needed. Please provide information on your reporting and tools available.*

If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

**46) What is the county's philosophy regarding the value of Consumer Driven Health Care as a benefit and engagement strategy?**

*Answer: Sedgwick County is interested in reviewing all options, but at this time the county would like to remain with a more traditional plan design. Consumer Driven Health Care strategies would be for a future discussion.*

**47) How far are you willing to go with your health plan to drive improved behaviors (activity vs. outcomes; incentive designs; wellness investments)?**

*Answer: Sedgwick County acknowledges that this is a topic that should and will be discussed with the selected vendor. However, this information was not requested as part of the RFP. If there is any information or thoughts on this topic you would like to reference, please include them in your response.*

**48) How are market trends like health care reform and provider payment reforms impacting your short and longer term strategies? How are these trends informing the approaches you are considering?**

*Answer: Sedgwick County is keeping their finger on the pulse nationally and on the Wichita market for purposes of comparison and evaluation. **51) What type of data requests will Sedgwick County government be requesting from the vendor?  
Please note the timeframes and frequency that data should be extracted and sent to Sedgwick County.**

*Answer: Sedgwick County, at a minimum, would like monthly claims data with enrollment information as well as large claim totals exceeding 50% of the pooling point. Should Sedgwick County move to a self-funded arrangement reports would need to be available monthly with paid claims broken out by Medical and Rx and any other lines of coverage that are paid by the administrator, specific stop loss reporting at a pre-defined percentage of specific stop loss level, diagnosis information related to all claimants listed on specific stop loss report, and enrollment by tier for all divisions and/or plans that the county has participation. With regards to IBNR, a claims triangle with incurred and paid history of 24 months (or historical through inception of the plan), monthly claims paid amounts and current carrier lag factor for their Book of Business (ex. 1.5 months or 45 days). Sedgwick County would like the ability to access their claims data through an administrator portal. Please note the above is not all inclusive but provides the basic reporting requested.*

**NOTE: Per Coventry, here is an explanation of the discrepancy on the Prior Period for the 2011-2012 plan year to be included in the Addendum:**

*“It has been identified that the prior Coventry reports did not include one of the active subgroups. The subgroup number was included but failed to import. The missing subgroup from 2012 only impacts the Health Care Utilization Reports. Coventry has identified a fix that addresses the issue however, the missing 2012 subgroup information will be loaded with the next monthly update on April 12<sup>th</sup>. The marketplace will need to respond utilizing data provided.”*

Firms interested in submitting a proposal must respond with complete information and all supplementary materials and **deliver on or before 1:45 P.M. (CDT), Tuesday, April 15, 2014**. Late proposals will not be accepted and will not receive consideration for final award.

**PLEASE ACKNOWLEDGE RECEIPT OF THIS ADDENDUM ON THE PROPOSAL RESPONSE PAGE.**

### Purpose:

Every employer faces unique challenges in providing health insurance to their employees based on industry, geographic region, and benefit plan. Coventry HealthCare of Kansas is dedicated to providing useful information to its Employer Partners. This report is intended to help you understand the services provided and their immediate cost; it should not be viewed as a financial settlement. Medical management fees, shared-risk settlements, and other indirect expenses have not been included.

### Overview:

The following reports display a snapshot of medical and pharmacy expenses provided to your employees and their dependents during the incurred time period noted above. Both units and incurred claims include an IBNR estimate that was developed using completion factors on the entire Coventry Health Care of Kansas' commercial book of business. Actual completion factors vary depending on specific group experience. Wherever possible, the current period's results are compared to a prior period of similar length. This information presents a basic view of your overall experience. The comparison cannot be accepted as your "trend" without understanding factors like benefit plan changes, membership or age/gender mix changes, shock claims, etc. However, the data may point out areas that can be controlled through future benefit plan changes.

**Methodology, Terminology and Other General Information:**

**I. Review of Report Methodology**

The information contained in this report has been prepared using data taken from the Coventry Health Care of Kansas claim system. While Coventry Health Care of Kansas has worked to standardize the way information is received from providers, it is possible for a given service to be provided to two members but to be billed in different ways. This can result in category differences; however, a given service from a given provider will always be allocated the same way.

Excluding those in Section 6, all reports that break out information for drugs will include pharmaceuticals provided in other settings. This data will not tie directly back to Section 6.

While all claims are billed and paid to the penny, many of the reports are rounded to the nearest dollar. Rounding differences can occur when this data is rolled up into summary reports. For instance, report 6-1 summarizes all data by member and then rounds to the nearest dollar, while report 6-2 summarizes the data by delivery method and brand/generic type, and then rounds the total to the nearest dollar.

**II. Member Level Privacy**

Due to privacy legislation and an internal commitment to protect our member's rights, we do not provide specific member information in any format which can be directly tied to an individual including name, birthdate, Social Security number, or employer number.

**III. IBNR**

"Incurred But Not Reported" (IBNR) claims have been included in this report using a completion factor based on our entire book of business. Your group specific claims will vary around this point based on a number of outside influences including but not limited to, the providers used, changes in group size, and shock claims. The methodology used to apply the completion factor to the associated claims is shown in the example below:

Incurred Claims: (What you have paid so far)	\$1,000
Estimated Completion Factor:	93%
Ultimate Claims: (The total we will eventually pay on your behalf for the incurred period)	$(\$1,000/.93) = \$1,075.26$
IBNR: (What we have not paid as of the date in question)	$(\$1,075.26 - \$1,000) = \$75.26$

NOTE: The monthly pattern of paid claims will be materially affected by member satisfaction of the deductible through a policy or calendar year. The impact is intensified as the plan deductible value is increased.

**IV. PMPM and Per 1000 Calculations**

Per member per month (PMPM) and per 1000 calculations are used to consistently present health insurance data for groups of varying sizes or to compare the same group from one period to the next while isolating the effects of member volume changes.

**PMPM**

This formula is best used to convert an aggregate dollar amount, such as total medical expense, into a unit that can be used to compare one period to the next when there are material membership changes.

Amt - Amount of the item to be compared

MM - Cumulative member months, the sum total of members each month in the period

PMPM - Per member per month amount

$$\text{Amt/MM} = \text{PMPM}$$

**Per 1000**

The most common use of this formula is to measure bed days; however, it is equally effective for physician visits or prescriptions. This report uses an industry standard calculation as follows:

Units - Bed days or physician visits or prescriptions in total

MM - Cumulative member months, the sum total of members each month in the period

U/K - Units per 1000

$$((\text{Units/MM}) * 12,000) = \text{U/K}$$

**This report:** details medical expenses by primary service categories, identifying the allowed amount as a percentage of billed, Coordination of Benefit (COB) savings, member share, and the net benefit expense. This report excludes capitated services and pharmacy as they have different contracting arrangements. Use this report to >evaluate network discounts at an aggregate level, > identify COB savings and > analyze the member's share. NOTE: This report does not identify savings from averted care due to comprehensive medical management or claims denied as noncovered services.

**This report:**

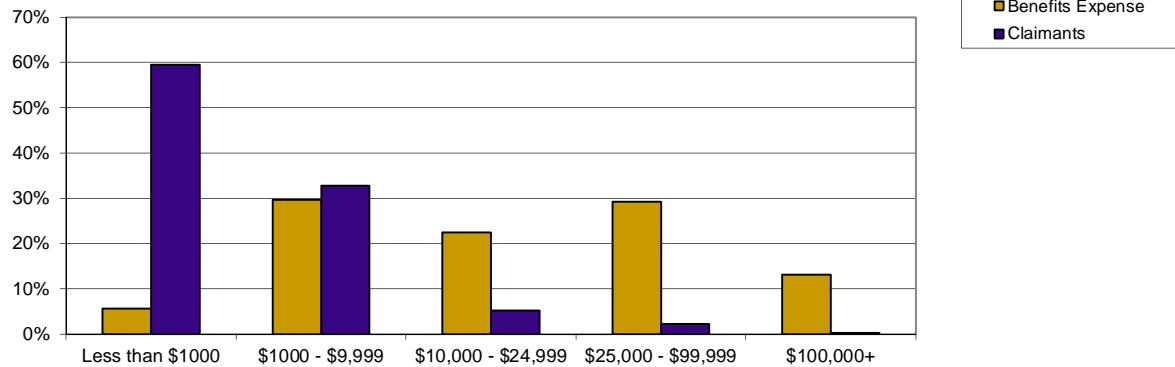

displays the number of claimants in each benefit category along with the associated benefits expense for the current incurred time period.

Use this report to:

- > determine the number of claimants who used the plan during the reporting period;
- > assess the number of claimants having the greatest impact on utilization ("80/20 rule");
- > identify how many claimants would be affected by certain benefit plan change; and
- > assess the impact of catastrophic claims on benefit trends.

Total Member Share contains additional components not shown separately in the report. These include Rx DAW Penalty, Rx Applied Deductible and Sales Tax.

**This report:**

lists the top 25 claimants with the highest benefits expense. The report provides specific clinical information for the highest cost diagnosis and the % of total benefits related to that diagnosis. Retail pharmacy and Navarro Over the Counter benefits expenses are included in Outpatient Benefits paid to simplify this report presentation. The Case Mgmt (CM) flag indicates that the member has an enrollment in Coventry's NAVCARE Case Mgmt application. It does not imply that the member is enrolled for the noted Dx.

Use this report to:

- > assess the impact of catastrophic claims on benefit trends;
- > identify claimants who could benefit from a case management program.

### Purpose:

Every employer faces unique challenges in providing health insurance to their employees based on industry, geographic region, and benefit plan. Coventry HealthCare of Kansas is dedicated to providing useful information to its Employer Partners. This report is intended to help you understand the services provided and their immediate cost; it should not be viewed as a financial settlement. Medical management fees, shared-risk settlements, and other indirect expenses have not been included.

### Overview:

The following reports display a snapshot of medical and pharmacy expenses provided to your employees and their dependents during the incurred time period noted above. Both units and incurred claims include an IBNR estimate that was developed using completion factors on the entire Coventry Health Care of Kansas' commercial book of business. Actual completion factors vary depending on specific group experience. Wherever possible, the current period's results are compared to a prior period of similar length. This information presents a basic view of your overall experience. The comparison cannot be accepted as your "trend" without understanding factors like benefit plan changes, membership or age/gender mix changes, shock claims, etc. However, the data may point out areas that can be controlled through future benefit plan changes.

## Methodology, Terminology and Other General Information:

### I. Review of Report Methodology

The information contained in this report has been prepared using data taken from the Coventry Health Care of Kansas claim system. While Coventry Health Care of Kansas has worked to standardize the way information is received from providers, it is possible for a given service to be provided to two members but to be billed in different ways. This can result in category differences; however, a given service from a given provider will always be allocated the same way.

Excluding those in Section 6, all reports that break out information for drugs will include pharmaceuticals provided in other settings. This data will not tie directly back to Section 6.

While all claims are billed and paid to the penny, many of the reports are rounded to the nearest dollar. Rounding differences can occur when this data is rolled up into summary reports. For instance, report 6-1 summarizes all data by member and then rounds to the nearest dollar, while report 6-2 summarizes the data by delivery method and brand/generic type, and then rounds the total to the nearest dollar.

### II. Member Level Privacy

Due to privacy legislation and an internal commitment to protect our member's rights, we do not provide specific member information in any format which can be directly tied to an individual including name, birthdate, Social Security number, or employer number.

### III. IBNR

"Incurred But Not Reported" (IBNR) claims have been included in this report using a completion factor based on our entire book of business. Your group specific claims will vary around this point based on a number of outside influences including but not limited to, the providers used, changes in group size, and shock claims. The methodology used to apply the completion factor to the associated claims is shown in the example below:

Incurred Claims: (What you have paid so far)	\$1,000
Estimated Completion Factor:	93%
Ultimate Claims: (The total we will eventually pay on your behalf for the incurred period)	$(\$1,000/.93) = \$1,075.26$
IBNR: (What we have not paid as of the date in question)	$(\$1,075.26 - \$1,000) = \$75.26$

NOTE: The monthly pattern of paid claims will be materially affected by member satisfaction of the deductible through a policy or calendar year. The impact is intensified as the plan deductible value is increased.

### IV. PMPM and Per 1000 Calculations

Per member per month (PMPM) and per 1000 calculations are used to consistently present health insurance data for groups of varying sizes or to compare the same group from one period to the next while isolating the effects of member volume changes.

#### PMPM

This formula is best used to convert an aggregate dollar amount, such as total medical expense, into a unit that can be used to compare one period to the next when there are material membership changes.

Amt - Amount of the item to be compared

MM - Cumulative member months, the sum total of members each month in the period

PMPM - Per member per month amount

$$\text{Amt/MM} = \text{PMPM}$$

#### Per 1000

The most common use of this formula is to measure bed days; however, it is equally effective for physician visits or prescriptions. This report uses an industry standard calculation as follows:

Units - Bed days or physician visits or prescriptions in total

MM - Cumulative member months, the sum total of members each month in the period

U/K - Units per 1000

$$((\text{Units/MM}) * 12,000) = \text{U/K}$$

lists the top 25 claimants with the highest benefits expense. The report provides specific clinical information for the highest cost diagnosis and the % of total benefits related to that diagnosis. Retail pharmacy and Navarro Over the Counter benefits expenses are included in Outpatient Benefits paid to simplify this report presentation. The Case Mgmt (CM) flag indicates that the member has an enrollment in Coventry's NAVCARE Case Mgmt application. It does not imply that the member is enrolled for the noted Dx.

**This report:**  
summarizes ER and Urgent Care utilization by Major Diagnostic Category ("MDC") for the current incurred time period. All data is based on the claim's place of service code, not level of care or service categories.  
Use this report to:  
> identify the highest cost MDCs; and  
> analyze how total dollars for an MDC are being allocated between ER and Urgent Care facilities.

**Notes:**

This report applies an algorithm to your group's emergency room claims (in an attempt to quantify potentially avoidable services). Based on a study by the NYU Center for Health and Public Service Research, a statistical model was developed. The ratios are applied to classify claims expenses by diagnosis into the following categories:

- ▶ **Non-Emergent** - The patient's initial complaint, presenting symptoms, vital signs, medical history, and age indicated that immediate medical care was not required within 12 hours - CONSIDERED AVOIDABLE;
- ▶ **Emergent/Primary Care Treatable** - Based on information in the record, treatment was required within 12 hours, but care could have been provided effectively and safely in a primary care setting. The complaint did not require continuous observation, and no procedures were performed or resources used that are not available in a primary care setting (e.g., CAT scan or certain lab tests) - CONSIDERED AVOIDABLE;
- ▶ **Emergent - ER Care Needed - Preventable/Avoidable** - Emergency care was required based on the complaint or procedures performed/resources used, but the emergent nature of the condition was potentially preventable/avoidable if timely and effective ambulatory care had been received during the episode of illness (e.g., the flare-ups of asthma, diabetes, congestive heart failure, etc.) CONSIDERED AVOIDABLE; and
- ▶ **Emergent - ER Care Needed - Not Preventable/Avoidable** - Emergency care was required and ambulatory care treatment could not have prevented the condition (e.g., trauma, appendicitis, myocardial infarction, etc.).

**Total Avoidable** combines Non-Emergent, Emergent/Primary Care Treatable, and Emergent ER Care Needed - Preventable/Avoidable

Note: this model is a statistically likely mapping of your claims. The report does not imply that the specific ER claims for your group were inappropriate for that setting. Such a statement could only be made based on analysis of the full medical record – patient history, conditions, age, gender, vital signs, etc. For more information, see the Background/Introduction of the study.

**Notes:**

This report provides top diagnosis and provider data for non-emergent ER visits based on total approved dollars. Only Hospital Outpatient dollars are considered in determining top expenses.

► Non-Emergent - The patient's initial complaint, presenting symptoms, vital signs, medical history, and age indicated that immediate medical care was not required within 12 hours - CONSIDERED AVOIDABLE;

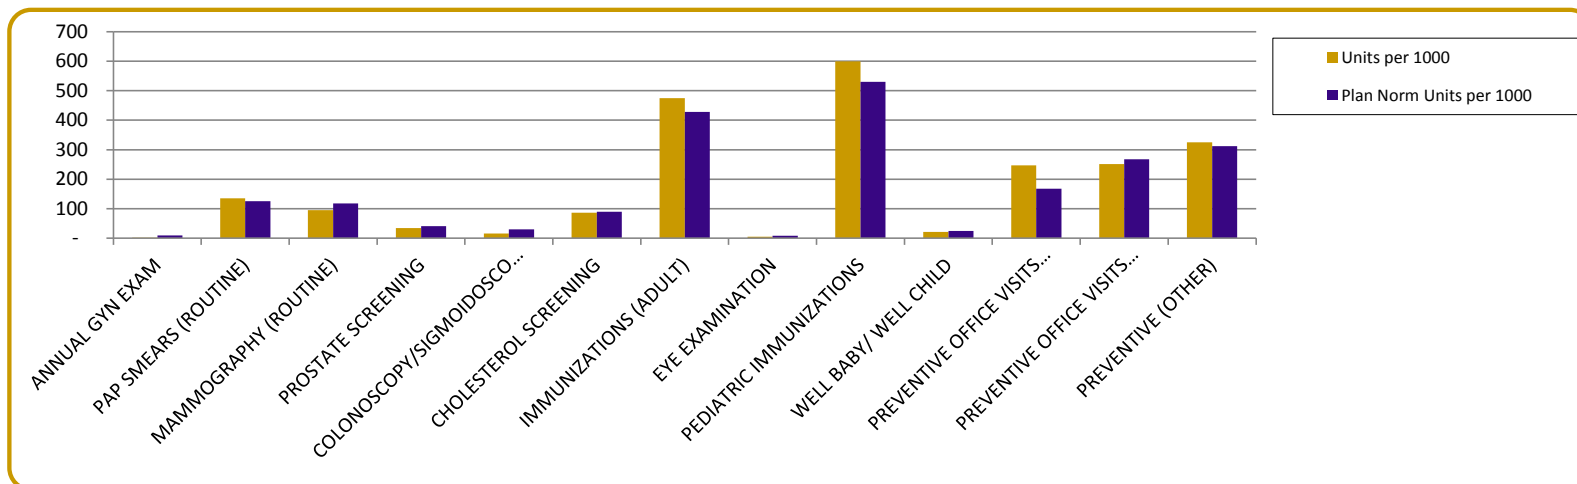

Disclaimer: It is important to recognize that the algorithm is not intended as a triage tool or a mechanism to determine whether ER use in a specific case is "appropriate" (e.g., for reimbursement purposes). Since few diagnostic categories are clear-cut in all cases, the algorithm assigns cases probabilistically on a percentage basis, reflecting this potential uncertainty and variation. It is not clear to what extent the initial complaint, presenting symptoms, vital signs, medical history, age, gender, diagnoses, procedures performed, and resources used in the ER impact the probabilities across the non-emergent and emergent categories.

The total Member Responsibility shall not exceed the total allowable cost of the Prescription Drug.

The following also apply:

- Member Responsibility will be charged for each Covered Prescription each time a prescription is filled or refilled, up to a thirty-four (34) day supply for Retail and Specialty Pharmacy, and up to a ninety (90) day supply for Mail Order Pharmacy. You are required to pay the full Member Responsibility to the Participating Pharmacy at the time the prescription is obtained. In the event that the Covered Prescription cost is less than the Member Responsibility, You will be responsible for the cost of the Covered Prescription.
- Controlled Substance Prescriptions and non-Maintenance Medications are not covered through a Mail Order Pharmacy.
- Coverage for preventive drug products will be provided at 100% of Allowed Amounts in a manner consistent with Section 2713 of Federal H.R. 3590.
- Generic oral anti-diabetic medications will be provided at 100% of Allowed Amounts. Formulary meter, insulin vials and diabetic supplies will be provided at 100% of Allowed Amounts and may be dispensed in a three (3) month supply. **There is no Coverage available for diabetic supplies not listed on the Formulary.** Formulary or non-Formulary insulin may be dispensed in a three (3) month supply subject to the applicable Copayment for each month's supply.

- Only one drug and "Rx Unit" will be dispensed per prescription. The Rx Unit quantity is determined by FDA labeling, the dosage required, or the Plan Formulary guidelines. Please note: Member Responsibility is required for each Rx Unit, container, or prepackaged item.
- Oral Contraceptives may be dispensed in a three (3) month supply; however, a Copayment is required for each month's supply.
- Value Formulary drugs are offered at no Member Responsibility on a **temporary basis** to individuals that are on or have recently received certain drug(s) and/or receive a new prescription for certain drug(s), as designated by the Plan to promote effective and efficient use of the Plan drug benefits. These drugs are listed on Our website at [www.phsystems.com](http://www.phsystems.com). Our website shall also identify the Plan Criteria applicable to the Value Formulary Drugs. This Value Formulary list may change from time to time without prior notice. Individuals that appear to

meet the Plan criteria for Value Formulary Drugs (as such information is available in Plan's claims records) will be notified if they qualify for a Value Formulary drug, when such drugs are temporarily added. Please note, just because You fill a prescription for a Value Formulary drug does not qualify You to receive such drug at no Member Responsibility. Rather, only individuals that meet Plan criteria will receive the selected drug at no Member Responsibility. If You do not satisfy the Value Formulary drug Plan criteria, the drug shall be subject to its applicable Member Responsibility.

The Plan has determined that the prescription drug coverage described in this Rider is, on average for all plan participants, expected to pay out as much as or more than the standard Medicare prescription drug coverage will pay. Because of this, it is considered to be "Creditable Coverage." You can keep this coverage and not pay extra if You later decide to enroll in Medicare coverage. If You drop or lose Your coverage with the Plan and do not subsequently enroll in Medicare prescription drug coverage, You may end up paying more for Your Medicare prescription drug coverage if You go sixty-three (63) days or longer without creditable coverage. For more information about Medicare plans that offer prescription drug coverage, visit [www.medicare.gov](http://www.medicare.gov) or call 1-800-MEDICARE (1-800-633-4227).

For people with limited income and resources, extra help paying for a Medicare prescription drug plan is available. Information regarding this program is available through the Social Security Administration (SSA) online at [www.socialsecurity.gov](http://www.socialsecurity.gov), or call the SSA at 1-800-722-1213 (TTY 1-800-325-0778).

TIER 3 NON-FORMULARY means Prescription Drugs that are not otherwise excluded under the Agreement and that are not designated as Tier 1 or Tier 2, including brand name and generic Prescription Drugs that are not on the Plan's Formulary.

#### **FRAUDULENT USE OF PRESCRIPTION SERVICES:**

Fraudulent use of prescription services including, but not limited to, allowing an unauthorized person's use of the ID Card or forgery of a prescription drug order, will result in termination of Coverage under the Plan. In addition, You will be responsible for reimbursement of any services provided as a result of fraudulent behavior.

#### **PRIOR AUTHORIZATION:**

Certain Prescription Drug Products require Prior Authorization from the Plan or are subject to a Step Therapy Program in which first-step or prerequisite drugs must be utilized for therapeutic treatment prior to coverage of second-step drugs. Prior Authorization is to be obtained from the Plan by the Prescribing Provider. The list of Prescription Drug Products and the coverage criteria requiring Prior Authorization are subject to periodic review and modification by the Plan. A current list of Prescription Drug Products requiring Prior Authorization or Step Therapy is available by visiting Our website at [www.phsystems.com](http://www.phsystems.com) or by contacting Us at the telephone number on Your ID Card.

#### **MEDICARE PART D CREDITABLE COVERAGE NOTICE:**

The Plan has determined that the prescription drug coverage described in this Rider is, on average for all plan participants, expected to pay out as much as or more than the standard Medicare prescription drug coverage will pay. Because of this, it is considered to be "Creditable Coverage." You can keep this coverage and not pay extra if You later decide to enroll in Medicare coverage. If You drop or lose Your coverage with the Plan and do not subsequently enroll in Medicare prescription drug coverage, You may end up paying more for Your Medicare prescription drug coverage if You go sixty-three (63) days or longer without creditable coverage. For more information about Medicare plans that offer prescription drug coverage, visit [www.medicare.gov](http://www.medicare.gov) or call 1-800-MEDICARE (1-800-633-4227).

For people with limited income and resources, extra help paying for a Medicare prescription drug plan is available. Information regarding this program is available through the Social Security Administration (SSA) online at [www.socialsecurity.gov](http://www.socialsecurity.gov), or call the SSA at 1-800-722-1213 (TTY 1-800-325-0778).

With our prescription drug plan, most drugs are covered on one of three different copay (or coinsurance) levels. For some benefit plans, specialty copays (or coinsurance) may vary. Please refer to your health plan documents regarding your specialty medication benefit.

**Tier-One** – Includes preferred generic and select over-the-counter (OTC) drugs.

**Tier-Two** – Includes preferred brand-name drugs.

**Tier-Three** – Includes non-preferred generic and brand-name drugs. These drugs may have a lower cost alternative on Tier-One or Tier-Two.

This is not meant to be a complete list of the drugs covered under your plan. Not all dosage forms of the drugs listed below are covered. Brand names are listed for informational reference. Under some circumstances, preferred drugs may be excluded from your plan (for example, growth hormone, erectile dysfunction drugs). We periodically review our Prescription Drug List. This is the most current list at the time of printing and is subject to change. Some medications may require prior authorization or have quantity limits (see back page). Please consult with your Prescription Drug Plan Customer Service Representative for any questions about your coverage or for more information.

## Specialty Medications

Specialty medications are typically high-cost drugs, including but not limited to the oral, topical, inhaled, inserted or implanted, and injected routes of administration used to treat rare and complex diseases (see list of Specialty medications listed below).

Specialty medications require prior authorization unless otherwise indicated. Your doctor should contact Coventry's Pharmacy Call Center at 877-215-4100 to request prior authorization.

Except in urgent situations, all specialty medications are distributed through a participating specialty pharmacy. Specialty drugs are limited to a 30 day supply at a time or the quantity prescribed in the prescription order, whichever is less. Please call Customer Service at the number on your member ID card for a referral to a participating specialty pharmacy or with questions regarding your pharmacy benefit. Please refer to your health plan documents regarding coverage of and any limitations or exclusions that may apply to your specialty drug benefit.

## Quantity Limits

Some of the drugs listed in this Prescription Drug List are subject to quantity limits. For a complete list of drugs that are subject to quantity limits for your benefit plan, please refer to your health plan website or to the customer service number which is listed on your member ID card.

## Prior Authorization

Coventry Health Care has two broad goals for the prescription drug benefit we offer. One is to never compromise the quality or effectiveness of treatment. The second is to provide a comprehensive, affordable pharmacy benefit. One of the tools we use to help control prescription drug costs is to require prior approval, or authorization, before we will cover the cost of certain medications. These medications include those that (1) are not suggested for first-line therapy, (2) may require special tests before starting them or (3) have very limited approval for use. Drugs that could require Prior Authorization are identified by (PA) for members with the Standard Prior Authorization Program and (PAS) for members with the RxSelect Prior Authorization Program.

Step Therapy is an automated form of Prior Authorization based on previous pharmaceutical treatment. Drugs designated as stepped therapy will require prior authorization if the condition is not met when the pharmacist would attempt to transmit a prescription claim. Drugs that could require Step Therapy are identified by (ST) for members with the Standard Step Therapy Program and (STS) for members with the RxSelect Step Therapy Program.

Only your physician can provide the information necessary to complete the prior authorization process. If you have been prescribed one of the drugs identified by (PA), (PAS), (ST) or (STS), make sure your doctor knows that this medication requires prior authorization. Your doctor should contact Coventry's Pharmacy Call Center at 877-215-4100.
