**Request for Bid #15-0021**  
**Preventive Maintenance and On-Call Support: Backup Generators**  
**Addendum #2**

March 9, 2015

Two points of clarification as discussed at the site visits last Thursday –

- All CAT gensets will require the use of OEM CAT replacement parts and fluids.
- The county does NOT do load transfer testing through the transfer switches. There is weekly testing done on the actual transfer switch, but the power load is NOT transferred to the generator.

A handwritten signature in black ink that reads "Kimberly Evans".
