ADDENDUM 1
16-0024
VIDEO SURVEILLANCE SYSTEM

March 10, 2016

The following is to ensure that vendors have complete information prior to submitting a bid. Here are some clarifications regarding the bid for the Video Surveillance System.

Questions and/or statements of clarification are in **bold** font, and answers to specific questions are *italicized*.

- 1. There are 2 spaces in the basement common areas that are not shaded in on the layout. A short hall way near the southwest corner and the hall space in the north section near the elevator where there is a partial wall division in the room.**
No coverage will be necessary at these two locations.
- 2. The courtyard is not marked for an area of wanted coverage; however it was discussed in the walk through that the gate that exits the courtyard needed to be included.**
The gate that exits the courtyard as well as the entire perimeter of the courtyard must be included in the coverage.
- 3. Will the county be supplying rack space?**
The intent would be to use the existing rack space located in the closet on the main floor. There is enough capacity to accommodate this new system.
- 4. Is there an existing path for cabling (conduit or raceway) between floors or will the contractor be expected to provide these?**
Yes, there is an existing path between the main floor and basement.
- 5. The County has specified hard drive storage; do you have an expected amount of video retention?**
Yes, two weeks.
- 6. Is plenum cabling required?**
Yes, plenum cabling is required.
