On the recommendation of Dallas Shaffer, on behalf of the Sedgwick County Facilities Department, Linda Kizzire moved to **accept the low responsible bid from Commerce Construction in the amount of \$74,000.00**. Jennifer Dombaugh seconded the motion. The motion was passed unanimously.

Caro Construction and Burns Boys did not meet the specifications stated in the bid.

Question: What specifications did they not meet? The bid documents specifies that all alternate product has to have prior approval before it is submitted in the bid document. They submitted a wall replacement which was not approved by the Architects.
