On the recommendation of Purchasing and Facilities-Project Services, **accept the low proposal from Hanney and Associates Architects in the amount of \$20,130.00.**

This project consists of architectural and engineering services to construct a storage garage for EMS reserve ready fleet and equipment. The location of this building will be at the corner of Stillwell and Handley near the Stillwell complex. The facility will include space to store six ambulances and include space for storage of equipment.

Hanney and Associates is our current on-call Architect for A&E services and has performed satisfactorily on previous projects.
