|-----------------------------------|---------------------------------|
| Engineer's Estimate: \$256,200.00 | <b>Coughlin Company I, Inc.</b> |
| Cold Mix Recycling                | <b>\$230,412.00</b>             |
| Bid bond                          | <b>Yes</b>                      |

On the recommendation of Kristen McGovern, on behalf of Public Works, David Spears moved to **accept the bid from Coughlin Company I, Inc. in the amount of \$230,412.00.** Linda Kizzire seconded the motion. The motion passed unanimously.

This pavement preservation process is new to the county and requires specialized equipment, materials and knowledge. As a result, there are a limited number of vendors in the country who can perform this process.

Question: Is this for a specific section of road? David Spears with Public Works answered that the cold mix recycling process will be used on approximately two miles of 55th Street South by K-42. This process will buy time and save money by delaying the need for Super Seal, which totally replaces roads in need of maintenance. This process will utilize asphalt chips from the county yards that have been saved over the years, recycling them.
