Questions and Answers

Tim Kaufman asked: "We sent this RFP to twenty-three (23) different vendors and only received two (2) responses. Do we know why?"

Susan Erlenwein (Director of Environmental Resources) answered: "The RFP was sent out to some companies that don't exactly fit the criteria of just collecting tires in this massive amount to dispose of. The two (2) companies that did provide responses are companies who have provided this service to us in the past. This is our fifth tire roundup."

Linda Kizzire asked: "Where are we going to hold this? At one of the yards?"

Susan Erlenwein answered: "We'll hold this at the county West Yard, and the date we selected works best with their schedule for road works so it doesn't interrupt their services."
