

# Travel Smart

Staying healthy while traveling requires planning and preparation. **Immunization** is one of the best forms of protection for travelers. Many vaccine-preventable diseases rarely seen in the United States are still prevalent in other parts of the world. The Sedgwick County Division of Health (SCDoH) offers travel vaccines to protect against diseases that aren't common in the United States. The Centers for

Disease Control and Prevention (CDC) advises you to make sure you are up-to-date with all routine vaccinations before you travel. Consult the CDC travel website at <https://wwwnc.cdc.gov/travel> and contact the DoH at 316-660-7362 with your travel immunization questions. SCDoH offers the following travel vaccines, as well as other vaccines you may need for travel:

## Vaccines

## Prices

Rabies	\$319.26
Typhoid (Oral)	\$74.31
Typhoid (Injection)	\$123.75
Yellow Fever <i>(currently unavailable)</i>	\$182.02
