I. About this Document

This document is a Request for Proposal. It differs from a Request for Bid or Quotation in that the county is seeking a solution, as described on the cover page and in the following Background Information section, not a bid or quotation meeting firm specifications for the lowest price. As such, the lowest price proposed will not guarantee an award recommendation. As defined in Charter Resolution No. 68, Competitive Sealed Proposals will be evaluated based upon criteria formulated around the most important features of the product(s) and/or service(s), of which quality, testing, references, service, availability or capability, may be overriding factors, and price may not be determinative in the issuance of a contract or award. The proposal evaluation criteria should be viewed as standards that measure how well a vendor's approach meets the desired requirements and needs of the county. Criteria that will be used and considered in evaluation for award are set forth in this document. The county will thoroughly review all proposals received. The county will also utilize its best judgment when determining whether to schedule a pre-proposal conference, before proposals are accepted, or meetings with vendors, after receipt of all proposals. A Purchase Order/Contract will be awarded to a qualified vendor submitting the best proposal. Sedgwick County reserves the right to select, and subsequently recommend for award, the proposed service(s) and/or product(s) which best meets its required needs, quality levels and budget constraints.

The nature of this work is for a public entity and will require the expenditure of public funds and/or use of public facilities, therefore the successful proposer will understand that portions (potentially all) of their proposal may become public record at any time after receipt of proposals. Proposal responses, purchase orders and final contracts are subject to public disclosure after award. All confidential or proprietary information should be clearly denoted in proposal responses

and responders should understand this information will be considered prior to release, however no guarantee is made that information will be withheld from public view.

II. Background

Sedgwick County, located in south-central Kansas, is one of the most populous of Kansas' 105 counties with a population estimated at more than 514,000 persons. It is the sixteenth largest in area, with 1,008 square miles, and reportedly has the second highest per capita wealth among Kansas' counties. Organizationally, the county is a Commission/Manager entity, employs nearly 2,500 persons, and hosts or provides a full range of municipal services, e.g. – public safety, public works, criminal justice, recreation, entertainment, cultural, human/social, and education.

The purpose of the ergonomic assessments and training is to proactively eliminate work-related ergonomic risk factors and prevent or reduce workplace-acquired injuries. Workers' Compensations claims cost Sedgwick County hundreds of thousands of dollars each year. It is the responsibility of every department to: provide a safe work place for its employees, work to prevent or minimize identified ergonomic hazards, injuries, and to provide funding for corrective actions. Sedgwick County will utilize the services of a qualified service provider specializing in ergonomic assessments and training to assist us in accomplishing this goal.

A request for ergonomic assessments or training will be submitted through a supervisor or department head. A questionnaire must be filled out by both the employee and the supervisor. Based upon the questionnaire, a determination will be made whether an assessment is needed. The ergonomic service provider will then notify the employee and supervisor to schedule an assessment with both present, if it is determined to be necessary. The provider will conduct the assessment and produce a report (which may be in electronic format) to be distributed to the supervisor, the department head, and Contract Administrator.

The department is responsible for providing recommended action as soon as possible and must provide the assessor with written documentation of corrective action to be taken and the completion date. The costs associated with any and all corrective action taken will be borne by the employee's department.

The provider will conduct a follow-up approximately four (4) weeks following the initial assessment and will submit the follow-up report (which may be in electronic format) to the supervisor, department head, and county designee. Follow-ups will be performed by the county's service provider until all items in the initial report have been reasonably addressed or completed.

The service provider will upon request by the individual department heads, coordinate training sessions and provide training materials to assist departments in minimizing ergonomic hazards and injuries.

- 9. The selected vendor must use and adhere to the industry-accepted established chair and keyboard tray standards that also meet OSHA requirements
- 10. Where the ergonomic assessment relates to an employee's medical condition, the adjustments/changes that result from the assessment may be considered a form of reasonable accommodation.
