The Adopted Budget focuses County resources on four priorities: safe and secure communities, human services and cultural experiences, communications and engagement, and effective government organization. The total budget is almost \$440 million.

To help you understand more how your property taxes are used, Sedgwick County developed a quick way for you to see how those dollars are spent and allocated on government operations and other priorities. At the “My Local Taxes” online application, you will find two sources of information: Your Total Taxes by Jurisdiction and your Sedgwick County Taxes at Work. Click here to learn more:
