- Through aggressive community outreach, the Community Crisis Center will now be part of the student rotation for SWU Physician Assistant program.
- COMCARE had its unannounced Mental Health Licensing Visit on October 10. We hosted three auditors who interviewed staff, toured our service locations, reviewed administrative and patient records, reviewed policy and procedures and also viewed supporting documentation demonstrating our compliance with licensing standards. We were well prepared and had a successful licensing visit. We received full licensure for another two years.
- COMCARE hosted 16 behavioral health providers from the Valley Center School District on October 18 to discuss how to access COMCARE Crisis Services.
- COMCARE facilitated Youth Mental Health First Aid for 22 Americorp members on October 19.
- Crisis Staff provided suicide prevention education to 25 members of Ascension Lutheran Church on October 25.

- During the month of October, Sedgwick County Developmental Disability Organization (SCDDO) Quality Assurance Staff completed 18 day and 26 residential program visits.
- SCDDO Director collaborated with Carri McMahon from Wichita State University's Community Engagement Institute Center for Organizational Development & Collaboration to present at The NADD 35th Annual Conference

in Seattle, Washington. The session educated conference attendees on SCDDO's strategic approach to addressing gaps in services for individuals with co-occurring IDD and behavioral health conditions. Specifically, the NADD community training initiative and learning collaborative contract with Wichita State University was highlighted. The session was well attended and Dee has been contacted by Oregon State to learn more about our local efforts.

- The Kansas Leadership Center awarded a 2019 Leadership Transformation Grant to the Sedgwick County Department of Public Services. In October, members of the “Core Team” attended training at KLC to begin planning for the implementation of the grant in 2019. Employees from the Divisions on Aging, CDDO, COMCARE and Health along with members from the Division of Corrections will have access to premiere leadership training at KLC throughout 2019. The Core Team is also recommending the development of an internal Sedgwick County training team charged with sustaining leadership development training based upon the Kansas Leadership Center's principles and competencies. A training team will support organization capacity to develop leadership through a proposed partnership with HR.
- SCDDO Director, in collaboration with DPS leadership launched the Department of Public Services Peer Coaching Program this month. To date, three applications have been received by interested parties. Initial programming is focused on succession development by targeting DPS staff who currently hold a formal supervisory/management position. In 2019, peer groups will be extended to all KLC Leadership Transformation Grant trainees and others who have attended a KLC training but do not currently hold a supervisory/management position.
- October 4th the Sedgwick County Business Leadership Network (BLN) hosted the SCBLN 2018 Forum entitled “Capitalizing on the Benefits of Inclusion.” Rob Hoffman with the Greater Kansas City BLN opened the session with a compelling keynote address on strategies for maximizing return on investment with disability inclusion. Additional speakers covered incorporating disability awareness into new hire processes, creating successful partnerships with employment agencies and government incentives and tax breaks.

Sedgwick County Division of Health

- **Community Health Advocates (CHAs):** The CHAs Program Coordinator, one volunteer and one County staff shared health care information and materials with county residents to assist on how to connect with an affordable medical home. Volunteers presented to ninety-four recipients in venues, which included but were not limited to the Asian Wellness Health Fair, CHAs' training, Department of Children and Family informational meeting, McKinney-Vento Health Fair, NE Magnet School Event, and the SCDOH NEO. Of the 94 recipients no one requested follow-up information. The CHAs have presented to 1,691 individuals since January 2018..
- **Epidemiology:**
 - On October 2 and 3, Epidemiology staff attended the Kansas Public Health Association meeting in Wichita. Two staff presented posters to conference attendees, "Current State of Opioid Use in Sedgwick County, Kansas" and "Elevated Blood Lead Priority Mapping to Improve Lead Poisoning Outreach and Case Ascertainment in Sedgwick County, Kansas."
 - On October 4th, Epidemiology staff participated in the Joint Criminal-Epidemiological Investigations Workshop hosted by the FBI and Johnson County Department of Health and Environment. The workshop had participants from public health, law enforcement, fire, emergency management, and laboratories from the federal, state, and local level. Participants learned about how the FBI investigates terrorist activities, and how public health and first responders can work together to interview patients and share information during public health events.
 - On October 17th, two Epidemiology staff attended the 2018 Regional Pediatric Lead Poisoning Prevention Summit in Wyandotte County. Staff participated in a discussion panel, "Resources for the Community-Case Studies, Lead Exposure, and Funding Opportunities."
- **Immunizations:** Immunizations staff administered 326 flu shots to employees and spouses during the Columbus Day Wellness event. Staff administered 100 flu shots and screened 22 clients for lead during the annual Asian Wellness Day event. Immunization staff also participated in the annual Café con Lech Health Fair where 62 clients were screened for lead. The Immunization Program saw an increase in vaccinations and clients seen as a result of USD 259 school exclusion. The Kansas Department of Health and Environment (KDHE) conducted its annual Vaccines for Children (VFC) site visit. KDHE staff congratulated the Immunization Program as there were no compliance issues found. KDHE also thanked the Immunization Program for its ongoing efforts to uphold VFC Program standards.
- **Women, Infants and Children (WIC):** The Sedgwick WIC caseload shows 2,783 women, 2,824 infants, and 6,842 children under age five enrolled in the program. Total of 12,449 participants.

West Nile virus, non-neuroinvasive ^c .	0	0	0	0	3	3	2	2

^a Selected reported notifiable conditions are listed in this table which shows the number of confirmed and probable cases in Sedgwick County.

Case numbers are subject to change. The table shows the number of cases in Sedgwick County, by month of onset or surrogate date, which are completed and which meet the probable and/or confirmed case definitions used by the Centers for Disease Control and Prevention (CDC). CDC case definitions are available at <http://www.cdc.gov/mmwr/preview/mmwrhtml/00047449.htm>. Data reported are likely an underestimate of the actual number of cases in the community due to incomplete disease reporting and strict, standardized public health case definitions. The numbers in this table do not include all investigations.

b. Confirmed cases are reported for this disease.

c. Probable and confirmed cases are reported for this disease.

d. Actual case determination for tuberculosis disease is not made until the end of each year, and the number reported on this table may not match the number of clients the health department has treated as tuberculosis cases.

e. This number represents new LTBI cases that were seen in the Sedgwick County TB clinic and evaluated for treatment. Neither CDC nor the Kansas Department of Health and Environment track the number of people with tuberculosis infection (screen test positive and undergoing treatment but no active disease).

Monthly Trends of the Selected Investigations Shown on the Table

Disease Intervention Specialist Assignment Areas

Sedgwick County Disease Intervention Specialists Investigate Sexually Transmitted Infections in the 57 Counties Shown in Red (C)

^a The most commonly reported notifiable conditions are listed in this table which shows the investigations performed by Sedgwick County staff (an indicator of workload and potential outbreaks). The numbers include suspect, probable and confirmed cases; people with positive screening tests; and contacts of cases.
^b Beginning January 2016, reports of salmonellosis or Shiga toxin-producing *E. coli* infection are investigated by KDHE and are shown on the table.
^c Beginning April 1, 2016, all elevated blood lead reports of ≥ 5 $\mu\text{g}/\text{dL}$ are investigated by SCDOH staff. From January 1, 2014 through March 31, 2016 elevated blood lead reports of ≥ 10 $\mu\text{g}/\text{dL}$ were investigated.
^d In cooperation with the Kansas Department of Health and Environment, Sedgwick County staff performs investigations of syphilis and HIV/AIDS in 57 Kansas counties. These data are shown in the table. Beginning January 2016, chlamydia and gonorrhea reports are investigated by KDHE (http://www.kdheks.gov/sti_hiv/sti_reports.htm).
^e Two year average per month.
^f Both 2016 and 2017 investigations are calculated using a new methodology (by date report created in case management system).
^g 2016 reflects Sedgwick County staff shortages and training of new investigators.

Selected Activities Workload Report

SEDGWICK COUNTY
DIVISION OF HEALTH

October 2018

Published:

Page 1 of 2

Activity	Program	October 2018	October 2017	YTD 2018	YTD 2017	Reason for Variance
Clinical Encounters ¹	Children's Dental Clinic – on-site services	110	92	803	799	
	Children's Dental Clinic – off-site screenings ²	2,936	N/A	13,584	6,472	Hunter Health has asked CDC to assist with school screenings
	Early Detection Works ³	38	75	196	384	Changes in program screening criteria account for the lower number of eligible participants at Asian Wellness Fair this year and the overall decrease this year.
	Family Planning	416	474	4,504	4,452	Appointment schedule was cut back due to having 3 new staff still in training.
	Healthy Babies	545	437	5,466	4,348	We have boosted referrals from other agencies this month and in 2018.
	Immunizations & Health Screenings	2,749	1,991	11,460	9,589	MTD and YTD demands increased for the majority of vaccines offered by the DOH. During the month, flu shots, Prevnar13 and Pediarix showed the highest increases. Demands for vaccines fluctuate for no obvious reason.
	Maternal Child Health Care Coordination (MCHCC)	50	80	638	766	MCHCC number is affected by FP and/or STD number
	Sexually Transmitted Infections Clinic	187	210	2,106	2,166	Variation in numbers can be attributed to intermittent increase or decrease in positive cases of STI and f/u treatment.
	Tuberculosis Control	188	237	1,805	2,614	Decrease due to shortened treatment protocol and state-wide decrease in TB cases.
	Women, Infants, & Children (WIC) ⁴	3,491	3,795	34,558	37,660	*Based on Sept 2018 WIC data. Caseload down over all.
Unduplicated Clients ⁵	Children's Dental Clinic	89	81	301	318	
	Early Detection Works ³	32	58	178	357	
	Family Planning	403	453	2,664	2,515	
	Healthy Babies Program – Primary Parent	428	418	658	740	Client retention has reduced the number of new clients
	Immunizations & Health Screenings	2,664	1,905	8,773	7,355	
	Maternal Child Health Care Coordination (MCHCC)	50	80	638	766	
	Sexually Transmitted Infections Clinic	177	191	1,602	1,698	
	Tuberculosis Control	103	83	330	337	

¹ Clinical Encounters are documented face-to-face or over-the-phone contact between a SCDOH client and a SCDOH healthcare provider/practitioner for the purpose of providing healthcare service or assessing client health status.

² Off-site dental screenings are performed at Sedgwick County schools, health fairs and the Sedgwick County Juvenile Detention facility.

³ Early Detection Works is a program that provides breast & cervical cancer screening for women who qualify.

⁴ WIC numbers reflect the month prior to report month.

⁵ Unduplicated clients are the number of clients served. Each client is counted once during the reporting timeframe.

Selected Activities Workload Report - continued

SEDGWICK COUNTY
DIVISION OF HEALTH

October 2018

Published:

Page 2 of 2

Activity	Program	October 2018	October 2017	YTD 2018	YTD 2017	Reason for Variance
Laboratory Tests ⁶	Tests sent out and performed in-house on SCDOH clients	1,292	1,720	14,776	15,793	Staff shortages result in decreased encounters and testing.
	Tests performed as contracted reference laboratory for clinics other than SCDOH	386	368	3,353	2,709	Increase in the YTD reflects the increased testing activity in the past 18 months.
New Investigations ⁷	Animal Control – All	257	154	3,012	1,821	Increased efforts in nuisance patrols and animal transports in 2018.
	Animal Control – Animal bite	1	3	34	47	The number of bite investigations fluctuates.
	Epidemiology	126	113	1,040	1,065	Investigation numbers fluctuate from month to month.
	Sexually Transmitted Infection (STI) Control	42	68	707	1338	Personnel changes and cluster protocol limitations initiated by KDHE decrease overall numbers of reportable investigations.
	Tuberculosis (TB) Control	5	8	123	153	Decrease due to shortened treatment protocol and state-wide decrease in TB cases.
Client Contacts ⁸	Epidemiology	506	581	4,355	5,091	The increase in 2017 was due to a measles investigation in July with associated contact investigations and coordination with health partners.
	Sexually Transmitted Infection Control ⁹	26	52	487	739	Personnel changes limited the availability of DIS to see clients in the clinic but did not impact the total numbers of clients seen by other clinic programs.
	Women, Infants, & Children (WIC) ¹⁰	3,464	4,399	41,331	41,250	*Based on Sept. 2018 WIC data. Caseload down over all.
Outreach Events ¹¹	Animal Control	0	1	8	7	Presentations are provided at request or invitation by community organizations, schools or community fairs.
	Children's Dental Clinic	2	1	10	1	Dental has prioritized outreach this year.
	Community Health Advocates	8	9	26	37	The type and number of outreach events fluctuates. Decrease in 2018 YTD numbers is the result of fewer CHAs volunteering and a decrease in traditional opportunities for outreach.
	Healthy Babies	2	2	19	8	Café Con Leche and Community Baby Shower
Outreach Contacts ¹²	Community Health Advocates	94	655	1,691	4,194	The number of attendees fluctuates with the type and number of events. Decrease in 2018 YTD numbers is due to a decrease in large outreach opportunities.
	Healthy Babies	152	0	404	198	HB conducted a Community Outreach Day

⁶ Number of laboratory tests performed by SCDOH laboratory, sent out to reference laboratories, and performed by SCDOH programs.

⁷ Number of field service calls (Animal Control) and total investigations of notifiable diseases (Epidemiology, STI Control and TB Control).

⁸ Client contacts are the number of phone calls, faxes, emails and in-person consultation to clients or health partners regarding health education or disease investigation and control about clients. Client contacts are provided by SCDOH staff that are not healthcare providers/practitioners or are not for the purpose of providing a healthcare service or assessing clinical health status.

⁹ In-clinic consultation counts only.

¹⁰ WIC numbers reflect the month prior to report month.

¹¹ Outreach events are presentations to health partners/community groups and booths at community fairs/other events for the purpose of educating about health-related topics.

¹² Outreach contacts are the number of people who attended outreach events that are presentations, trainings, or other events where attendance is accurately calculated.
