

# VSP® KidsCare Plan<sup>SM</sup>

The VSP KidsCare Plan meets the eye care and eyewear demands of active and growing children by providing two comprehensive eye exams and one pair of glasses every year, plus other important benefits.

## A yearly benefit for children is important because:

- Vision problems left untreated can seriously impact children’s learning, behavior, and overall development.
- Children are prone to losing, damaging, and breaking their glasses.
- Rapid physical development can cause children to outgrow their glasses and experience significant vision changes in even one year.
- Parents appreciate the financial security of having their children’s eye care needs met more frequently, potentially saving them hundreds of dollars.
- Frame warranties typically cover only manufacturer defects and are good for just one year.

# 80%

of what children learn is through their eyes.<sup>1</sup>

# 20%

of preschoolers have a refractive error<sup>2</sup>

# 25%

of school-age children have vision problems that, if left untreated, can affect learning ability, personality, and adjustment in school<sup>3</sup>

## VSP KidsCare Plan Summary

<b>Plan Frequency</b>	<ul style="list-style-type: none"> <li>• Exam ..... 12 months</li> <li>• Lens..... 12 months</li> <li>• Frame (child)..... 12 months</li> <li>• Contact lenses ..... 12 months</li> </ul>
