

Lagoon Fence Requirements

Lagoons are required to be fenced before occupancy. The lagoon fence must be a minimum of 48 inches in height, with openings in the fence no larger than 2 inches by 4 inches. The fence material may be welded wire or chain link. The gate must be a minimum of 4 feet wide for access. The fence post may be made of wood or steel. Wire for the fence must be 14 gauge or better. The fence is to be located 5 feet off the exterior toe of the berm (see diagram).

- Height: 48 inches (minimum)
- Material: Welded Wire or Chain Link (maximum of 2" X 4" openings/hole in mesh)
- Gate: 4 feet wide (minimum)
- Posts: Wood or Steel
- Wire: 14 gauge or better

Chain Link

2" x 4" Welded Wire
