The following is to ensure that vendors have complete information prior to submitting a proposal. Here are some clarifications regarding the proposal for **Boiler #2 Tube Repair and Replacement** for **Facilities**.

Questions and/or statements of clarification are in **bold** font, and answers to specific questions are **italicized**.

**Question:** Are the tubes rolled on end and welded on the other?

**Answer:** Yes

**Question:** Do we have access to bring materials to the jobsite?

**Answer:** Yes

**Question:** Do you have hour restrictions for project completion or working hours?

**Answer:** Provide working hours for consideration if outside the normal 8am-5pm timeframe; can work with vendor to accommodate

**Question:** Do you have an expected completion of work?

**Answer:** Prefer completion of work to be before October 2019 (10/01/2019).

**Question:** Will staffing background checks be required? What is the process entail?

**Answer:** Yes, full process and detail of background checks will be a conversation with the end-user department where the work is being completed. This would be a no-inmate contact area that would require being escorted to the jobsite.

**Question:** Do you wish to have the vendor remove the metal waste afterwards?

**Answer:** Yes. If price is substantially lower, please provide pricing with and without waste removal for consideration. The County has a metal recycling dumpster available, located immediately outside of the facility. The vendor may use this dumpster for metal waste if elected.
Firms interested in submitting a bid, must respond with complete information and deliver on or before 1:45 pm CDT, May 28, 2019. Late bids will not be accepted and will not receive consideration for final award.

“PLEASE ACKNOWLEDGE RECEIPT OF THIS ADDENDUM ON THE BID RESPONSE PAGE.”
