The recommendation of Purchasing and Fleet Management is to accept the bid from Don Hattan Chevrolet in the amount of $25,150.00.

This vehicle is being purchased to replace the vehicle currently used by the Sheriff's Office. Its primary function is that of crime scene investigations, identification and collection of any physical evidence at the crime scene, on suspects or victims, items of evidentiary value collected at medical facilities, coroner’s offices, and any other venue or location as applicable. Once the evidence is collected, it is photographed, diagrammed, marked and packaged. It is then transported to the Sheriff’s Office Crime Lab or to off-site storage at one of our facilities.

Each of the Forensic Investigators are assigned a “lab van” as they all operate on an on-call basis in addition to their regular 40 weekly schedules. Each van is fully equipped to be self-supporting at any crime scene. They all carry sufficient supplies, collection equipment, hand tools, evidence bags/boxes, cameras, etc to accomplish such tasks. In the event of a large geographic crime scene or one of high visibility or importance, all three Forensic Investigators may respond. All lab vans are unmarked, and are full of built in shelving, storage bins and many storage racks for equipment.

Vehicle being replaced:
3627 - 2005 Chevrolet CG21305 VIN 1GCFG15XX51180333 Points – 18.5 Mileage - 136,215

This is a replacement vehicle. Surplus vehicle will be sold on Purplewave, Inc.
