

Noxious Weeds

Mission: Promote and perform sustainable noxious weed management practices that maintain or improve agricultural productivity in Sedgwick County.

Mark Furry
Director of Noxious Weeds
 901 W. Stillwell St.
 Wichita, KS 67217

Overview

Noxious Weeds controls and eradicates noxious weeds in Sedgwick County, as required by K.S.A. 2-1318. Control of noxious weeds on County property and right-of-ways is the Department's primary responsibility. The Department also operates a vegetation management program, suppressing perennial grasses and undesirable vegetation growing on shoulders and ditches. Each staff member holds a Commercial Applicator license from the Kansas Department of Agriculture, enforces State noxious weed laws, and helps citizens fulfill their responsibilities through education on effective techniques and products. A variety of equipment, including truck and ATV mounted spray units, is used for efficient and environmentally responsible treatment of infestations.

Strategic Goals:

- *Increase property owners' voluntary compliance with State laws related to noxious weeds*
- *Where voluntary compliance control cannot be achieved, ensure that infected privately owned sites received direct treatment for noxious weeds*
- *Maintain partnerships with public agencies to ensure that right-of-ways and public properties are free of noxious weeds*

Highlights

- Inspected and treated as needed over 400 properties with Musk Thistle, over 50 properties with Sericea Lespedeza, and properties with other noxious weeds upon request
- Seeded several Public Works projects including a road closure at Webb and 79th Street, a stream rechanneling project in Mulvane, and a flood prevention project at Fire Station 39
- Worked with Public Works and Parks Department staff to reclaim drainage areas on the west side of Sedgwick County Park

Accomplishments and Strategic Results

Accomplishments

The Noxious Weeds Department puts much thought into the purchase of herbicides and equipment each year as the Department reviews existing programs to evaluate the need, desired results, and costs involved. Noxious Weeds also works to improve efficiencies and mitigate environmental impact by constantly looking at potential application techniques, improved equipment, and materials that work better, faster, are safe to the environment, and more cost effective.

The Noxious Weeds Department also provides vegetation management for Public Works projects and roadways. This includes planting and treatment after road and bridge project completion to maximize a weed free environment; planting native grasses along revitalized stream banks to help control erosion; and mowing, treatment, and planting along County maintained bike paths to ensure public safety and enjoyment.

Strategic Results

The Noxious Weeds Department focuses on increasing crop production by reducing weed competition thus increasing the profit and sustainability of the County's agriculture partners. As an example, surveys in the early 1900's indicated that the bindweed acreage in Kansas was doubling about every five years. At that rate, bindweed would have covered seven million acres of cropland by 1964 had there been no organized control program. The initial Kansas Noxious Weed law, passed in 1937, and follow-on legislation has helped protect Kansas and Sedgwick County cropland and rangeland from such invasive noxious weeds as the field bindweed, Johnson grass, musk thistle, and Sericea Lespedeza. Another priority is to continue the sale of discounted herbicides for noxious weeds. This program allows landowners to purchase herbicides at a reduced rate to treat their own property and is important to the control of noxious weeds on private lands. Additional priorities include working with landowners on custom prescribed vegetation management plans.

Noxious Weeds has completed inspections and treatments on 2,200 acres of property owned by the Kansas Department of Transportation (KDOT), fulfilling the goal of completing 99.0 percent of the contracted amount. Additionally, the Department inspected and treated, as needed, 3,260 of 3,260 acres (100.0 percent) of County-owned property for noxious weeds, well above the goal of 75.0 percent

Significant Budget Adjustments

There are no significant adjustments to Noxious Weeds' 2021 budget.
