ADDENDUM 2 RFB #20-0062 FIRE ALARM TESTING AND INSPECTION

January 19, 2021

The following is to ensure that vendors have complete information prior to submitting a proposal. Here are some clarifications regarding the bid for Fire Alarm Testing and Inspection.

Questions and/or statements of clarification are in **bold** font, and answers to specific questions are *italicized*.

1. Is there special clearance/permissions for technicians, due to Covid?

Answer: All people entering Sedgwick County buildings must wear a mask. There are certain facilities where a questionnaire will need to be filled out and temperature will be taken before access is allowed.

2. How many people will be provided to walk with technicians for special access areas/locked rooms, etc.?

Answer: Typically, because of staffing issues there will only be one escort for technicians. Escort staffing can be decided when testing is scheduled with the Maintenance supervisor for a particular building. This is a full list of buildings and they are split up among 4 supervisors. An extra escort may be provided for Main Courthouse, Ronald Reagan, Adult Detention and JDF.

3. If lifts are required to conduct testing of devices, will these be provided or does the vendor need to provide?

Answer: Facilities can provide a lift for use after vendor signs waiver.

4. Do you require sensitivity testing requirements?

Answer: No

Firms interested in submitting a bid *must* respond with complete information and **deliver on or before 1:45 p.m. CDT, Tuesday, January 26, 2021**. Late proposals will not be accepted and will not receive consideration for final award.
