Covid restrictions

Question or Comment:

“We are SO close to ending the COVID pandemic and most of us are supposed to have our shots by July yet you lift restrictions on

bars where young people are not wearing masks. What is your reasoning? That is your reasoning? That is just like starting the surge of cases all over again like on the holidays. Listen to the facts from the health professionals. We still all need to stay vigilant so this crisis will finally end.”

Subject:

Covid-19 Regulations

Question or Comment:

“I want the commissioners to understand they will lose all support from me if something is not done to reduce regulations on

Sedgwick County businesses imposed in the name of public health. It is not the role of government to wrap the public in bubble wrap from every danger that exists. People's livelihoods are being affected not by the pandemic, but by the actions of the commissioners in any decision they make that usurps control over business practices, from reduced capacity to shortened business hours. Remember that while you sit behind your tax payer funded desks, the business owners of Sedgwick County are struggling to make ends meet in the wake of mandates and regulations imposed on them by local government officials."

Orders regarding Covid

Question or Comment:

“How long do we have to endure being dehumanized with masks?
Enough is enough! Our hospitals are not over run. The Wesley

ER will be cutting hours for staff. Stop trampling on our civil liberties for show. Look around and take notice of how many people have their noses sticking out. Most masks aren't N95 which they really don't protect. I have seen video of Dr. Fauci himself immediately remove his mask when the camera was turned off. Many of you have probably seen the photo of Fauci at a baseball game sitting between two people wearing masks but not Fauci. Even Fauci knows this a crock. The elderly and the immune compromised would be wise to continue to use caution. But the rest of society needs to get back living."

USD 259 vaccine

Question or Comment:

“Please allow schools to vaccinate employees 65 to 70 years old rather than leave the vaccine in the freezer. Leaving vaccine in the freezer just means more people will get Covid.”

Sedgwick County Covid-19 vaccination rules

Question or Comment:

“Why are the vaccination rules and Phase for Sedgwick County different from the state, and all other counties in the state? When

will we catch up and be in the same Phase as the rest of the state? Who made this decision and why?

County ends homelessness

Question or Comment:

“I know there are programs to help the homeless, but I keep thinking about an article I read regarding a NJ County (adjacent to

NYC) that has been declared as eliminating pandemic. Here is the article I am referring to (I'm willing to be involved):

Subject:

Terrible at life you are. Loves u no one does.

Question or Comment:

“Why the hell when we literally are having a pandemic are we spending millions on a baseball stadium? And why when we need

to preserve energy are yall lighting it up??? Why when are yall not only not preserving power, but going out of your way to waste more of it. Like, if mothers and children and families are having to go hours with out electricity, and heating. If these families who have nothing can preserve energy im sure yall can too.
