5. FOB Sedgwick County West Yard		Included in Price	
Delivery		3 Weeks	
TOTAL		\$95,604.30	
No Bid			

On the recommendation of Josh Lauber, on behalf of Public Works, Tim Myers moved to **accept the low bid from J & J Drainage Products Co. in the amount of \$67,410.00**. Anna Meyerhoff seconded the motion. The motion passed unanimously.

Steel pipe is used to construct drainage culverts under roadways and driveways.

## Notes:

Sedgwick County Public Works is transitioning to aluminized steel culverts because of the added longevity and durability that is provided by the aluminized coating versus a galvanized coating.
