Delivery Date	As per scheduled			
No Bid	Calvin Opp Concrete, Inc.	Powerco Maintenance & Striping Co.	Sherwin Industries, Inc.	Sherwood Construction

On the recommendation of Josh Lauber, on behalf of Public Works, Linda Kizzire moved to **accept the bid from Ergon Asphalt & Emulsions, Inc for an initial purchase of \$328,900.00 and establish contract pricing at the rates listed above for one (1) year with four (4) one (1) year options to renew.** Anna Meyerhoff seconded the motion. The motion passed unanimously.

CMS-IPC is a water-based asphalt emulsion product used primarily as a rejuvenating agent in scrub seals.

Scrub seal is a preventive maintenance treatment that has been used by county crews since 2018. Previously county crews were required to manually crack seal roads prior to the traditional surface treatment. Application of CMS-IPC oil using the scrub seal method eliminates the crack seal step in most applications, and incorporates a rejuvenating oil into the surface of the roadway, resulting in a more efficient and effective surface treatment.

Questions and Answers:

Linda Kizzire: Have we used Ergon Asphalt & Emulsions in previous bids?

Lynn Packer: We have used Ergon for decades; they are located north of Sedgwick County and has been our primary provider for emulsion and asphalt products.

Linda Kizzire: Lynn, do you know what the spend was last year for this product?

Lynn Packer: I do not know exactly what it was but it was very close to this price.
