Subject:

Sedgwick County and the Ad Astra Plan with focus on long term care Facility Guidance

Comment:

“Commissioners,

1. This link is currently displayed and if we citizens review it for current status and conditions, it is dated 20 May, 2020. Is it possible to get a realistic

status as to where we are in the plan now, as a community?

<https://www.sedgwickcounty.org/media/57158/schne-recoveryplanpdf.pdf>

2. Similarly, could you address the subject of reopening nursing homes in Sedgwick

County? The CMS released new guidance on 10 March and it deals with reopening

and visitation in nursing homes

When do you see us moving into phase 3 of the Ad Astra plan in Sedgwick County? Can you share a few of the metrics that are being

used to hold us in a phase two status used for long term care guidance?

Thank you ,

Paul Dave Miller

Subject:

Mask mandate

Comment:

“I spent the morning watching the commissioners’ meeting and totally disagree with the lifting of the mask mandate right now. I did agree with Commissioner Cruse and Lopez. It made sense to keep the mandate in place a little bit longer when so many have not been able to be fully vaccinated. I also agree on the benefit of getting medical input from experts rather than just making your own “guesses”

as to the immunity in our community. The decision should only be about protecting the community and those still vulnerable to the virus. It shouldn’t be about law suits which might happen. Seems some of you are governing based on fear of being sued rather than the health of your constituents. I also think you have placed a burden on businesses which still want to enforce masks. They will possibly have to deal with disgruntled customers who refuse to comply because it is no longer mandated. I am disappointed in your decision to rescind the mask mandate order at this time.

Subject:

Mask Mandate

Comment:

“Sent from Mail for Windows 10

I'm disappointed at the commissioners decision to no longer support the mask mandate. The CDC is recommending that the mask mandate and social distancing remain in place. I implore you to honor their decision on this matter for the health of residents of Sedgwick County.

Do you not think that the positivity rate will increase for Covid cases and deaths if you decide to counter the CDC and other qualified health officials?”

Subject:

Masks

Question or Comment:

“Just curious if you consulted any health professionals or if you are all health professionals, that you could take down the mask ordinance?”

Character Defamation

Question or Comment:

"I have been approved to see foster kids every year until now...they say "something recent" must have occurred with me to

cause this...nothing has changed for me in many years. Unless somebody else is using my identity. I need help resolving this issue. Every day I check the sign up for Covid vaccine times and there are always slots available. These are valuable times being wasted when the current phase 2 recipients are not filling every slot. Please, open up phase 3 now! Phase 2 has already had multiple opportunities and there are many people I know that are just barely under the age of 65 with risk factors! They have been very patient but still having to wait. We need as many vaccines in arms ASAP. Thank you! Angie.”
