Serious Issues

Comment:

“Hello,

I am writing as a concerned Kansas citizen and would like to address several very SERIOUS issues.

1. Border control – What is being done in Kansas to help with the massive invasion and crisis that will be coming to our neighborhoods in the very near future in my opinion. Considering Kansas is only two states away from Texas and several thousands of children and adults flooding into our country on a daily basis this is a very real concern not to mention the large number of illegal aliens with criminal intent

being allowed in by the hour. This is heartbreaking, extremely scary and unhealthy on so many levels. Sooner rather than later, I fear it will affect our city of Wichita.

2. What help, counseling and rehab is going to be offered for the many children, men, and women that may arrive? Where will they be housed, what can citizens do to help?
3. I would like to address SCR1611- the importance of voter integrity to keep our elections honest.
4. I am asking for any bill to be vetoed regarding the castration of any child under the age of 18 NOT to be allowed to make life altering life decisions regarding being confused about their gender.
5. What is being done in Sedgwick County regarding human trafficking? So much needs to be done to address this tragic, difficult subject. I had no idea until a few months ago how massive this is and now that I DO know I can not and will be silent. Tim Ballard is a true HERO fighting this and informing so many, if only we had MANY MORE LIKE HIM! His organization "Operation Underground Railroad" is incredible.
6. Do the police departments in Sedgwick County have a budget to fight human trafficking, if so, what kind of training is being done to address this? What kind of volunteer opportunities are offered for other concerned citizens to get involved? What kind of programs are available to bring more awareness to this growing troubling program? This cannot be ignored!
7. Convention of the States, is Kansas going to join regarding this along with the many other states that already have/
8. I am asking for the "vaccine passport" to be vetoed IF it gets that far.
9. Last but definitely not last – what is Kansas doing to address the Biden administration's attempt to grab our guns? This is our 1st amendment and it violates our constitution in our county. Law abiding citizens are not the problem, criminals are, and criminals will get guns regardless.

I would appreciate a reply back addressing each above as I am only doing my part to have voice heard.

Regards,
Tammy Minihan

Questions about election financing

Question or Comment:

“Some of these may have been answered already and if so let me know how to look it up. 1) Did Sedgwick County reach out to

Zuckerbergs organization (Center for Tech and Civic Life) or did they reach out to Sedgwick County? 2) When was the approval to accept the funding for the elections and was there a vote to accept, or was a single person responsible for the decision? 3) Can we see a breakdown of how ALL the ~ 850,000 the county received from Zuckerbergs organization was spent? Even if some of it was on smaller things like food for the poll workers? 4) Technical question as I am in the IT field – were any of the ESS voting machines connected wireless to the central tabulators?
