## Overview

Environmental Resources manages and enforces the Sedgwick County Solid Waste Plan and Household Hazardous Waste (HHW) Facility and provides community assistance and education regarding adherence to solid waste and stormwater regulations. The Department provides permits and inspections for the Sedgwick County Stormwater Management Plan, testing of surface waters, Hazard Communication training for County employees, chemical inspections of County departments, environmental assessments for Sedgwick County, and technical consultation for environmental projects affecting Sedgwick County. Staff work with Federal, State, and local agencies and serve on committees pertaining to water quality, air quality, stormwater runoff, conservation, solid waste, and natural resources.

## Strategic Goals:

- Engage the community in proper recycling by offering special waste minimization projects and multiple HHW disposal options, and increase compliance with the Sedgwick County Solid Waste Code through enforcement and education
- Improve the quality and quantity of water resources within Sedgwick County through stormwater permitting, inspections, conservation practices, and education
- Increase environmental compliance and awareness of Sedgwick County through research, environmental assessments and consultations, and employee hazardous communication training

## Highlights

- Reviewed 1,693 outfall locations for stormwater violations to make sure they conform with State law
- Issued 57,004 coupons over nine years that allowed residents to dispose of 1,000 pounds of bulky waste for no fee at the transfer stations
- HHW Facility handled 1,766,502 pounds of hazardous waste from 16,533 citizens in 2020
- Provided an electronic waste collection event in 2020 that collected 562,356 pounds of e-waste from 5,037 vehicles

# Accomplishments and Strategic Results

## Accomplishments

Environmental Resources worked on Sedgwick County-owned properties with the Kansas Division of Water Resources to expand water appropriations to accommodate future exhibit growth. State law requires Sedgwick County to test impaired surface water bodies for specific pollutants. Environmental Resources developed a plan for testing these water bodies and worked with the Conservation District to implement best management practices to reduce surface water runoff and associated chemicals from entering these lakes and rivers. The Department endeavors to offer improved solid waste programs and projects to the citizens every year. In 2020, Environmental Resources continued free drug disposal sites at five City police stations throughout Sedgwick County. The Department also provided five remote HHW collection events throughout the County to help better serve the citizens. Environmental Resources provided a e-waste collection event and continued to provide Bulky Waste Coupons, Christmas tree recycling, illegal dumping cleanups, nuisance abatements, and collection of household hazardous waste at the facility at 801 Stillwell.

## Strategic Results

Environmental Resources is proud of their services to the community. Their strategic results for 2020 include inspection of 1,693 outlet locations for illicit discharges that could cause erosion, pollution, and wasted water resources; collection of 46 water surface samples to determine if the water bodies were impaired; 187 random inspections of waste disposal facilities; and free disposal for townships of 45 tons of illegally dumped material. Additionally, 1,766,502 pounds of hazardous waste was delivered to the HHW Facility by 16,533 citizens, and 7,897 citizens reclaimed good household cleaning products, paints, and similar products from the HHW swap-n-shop area, which totaled 221,379 pounds, and saved the citizens money, as these items are free, and saved the County \$58,282 in disposal costs. The Department reported that 1,266 individuals participated in five remote HHW collection events, receiving 254,364 pounds of hazardous material; 190 businesses that generate small quantities of hazardous waste brought in 45,033 pounds of hazardous materials to the HHW Facility; and the e-waste collection event collected 562,356 pounds of e-waste from 5,037 vehicles in six days. Additionally, 5,778 bulky waste coupons were issued for residents to dispose of 1,000 pounds of waste for free and 3,613 Christmas trees were recycled from 22 County-wide drop-off locations. The free mulch is available to citizens.

## Significant Budget Adjustments

Significant adjustments to Environmental Resources' 2022 Recommended Budget include a \$167,214 increase in charges for service revenue to bring in-line with anticipated revenue, a \$80,572 decrease in interfund transfers due to the final bond payment for the HHW Facility, and the addition of 0.5 full-time equivalent (FTE) in HHW (\$40,413).

### • Environmental Resources Administration

Environmental Resources provides information on environmental issues affecting County government such as the sale of environmentally sensitive County-owned land, the purchase of property, and the safe disposal of hazardous materials formerly used by County departments. The Department conducts research and provides environmental consultation on County and community-wide projects, such as renewable energy and County water appropriations, and on issues dealing with surface and groundwater quality and quantity in Sedgwick County. Environmental Resources is responsible for mapping and inspecting stormwater outfalls, issuing storm water permits, testing surface water after certain rain events, and staffing the Stormwater Management Advisory Board. The Department works with erosion and water issues.

### • Conservation District

The Conservation District provides water quality monitoring, increased irrigation efficiency, assistance to landowners in best management practices, and improvement of onsite waste water systems. The Conservation District receives State funding to help local landowners implement Best Management Practice's on their land to decrease erosion and contamination of water. Sedgwick County's contribution to the Conservation District provides funding for external staff, water quality testing, supplies, and equipment.

### • Project Management

Environmental Resources is responsible for implementing Sedgwick County's Solid Waste Management Plan. This includes staffing the Solid Waste Management Committee, developing annual updates of the Solid Waste Management Plan, performing research, and designing special projects. Project management includes funding for the operation of storm debris equipment purchased in 2015.

### • Waste Minimization

Solid Waste Minimization is responsible for working with local governments, citizens, and businesses on minimizing waste. This includes onsite waste analysis of businesses, developing advertisements, writing articles for newspapers, developing recycling booklets, staffing departmental booths at public events, and presentations to various groups and the public. Waste minimization also includes funding for the Christmas tree recycling program and the operation of storm debris equipment.

### • Household Hazardous Waste Services

The Household Hazardous Waste (HHW) Facility accepts common household hazardous wastes from individuals at no charge, keeps convenient hours, and features a swap-n-shop from which citizens may take and reuse selected materials. Small businesses qualifying as conditionally exempt small quantity generators may use the facility and pay the County's contract disposal rate. HHW partners with sponsoring communities and businesses to hold five remote collection events annually.

### • Storm Debris Contingency

The Storm Debris Contingency was established within the solid waste fund to provide budget authority for unplanned disposal costs of solid waste. Initially established in after the 1991 Haysville tornado, the primary focus of this fund center was to assist with the tipping fees and other costs of disposing of the aftermath of storm damage. Originally included in the budget, it was shifted to a separate fund center for improved visibility. A resolution authorizing the original program was rescinded in 2015; however, the program was reestablished in the 2018 budget with an expanded scope for how the Contingency may be used.
