Questions and Answers

Russell Leeds: Was this a rebid from a previous contract?

Britt Rosencutter: It was. The previous awarded contract, the manufacturer could not fulfill due to all of the extenuating circumstances with the supply chain and availability of chips.

Russell Leeds: So this has previously been through Bid Board and approved by the Commission? The contract could not be fulfilled so we went out for a new bid.

Britt Rosencutter: Correct.

Brandi Baily: I have a question on the delivery date. For Don Hattan, it was 90 to 120 days for delivery and for Rusty Eck, it was 18 to 30 weeks. Does that make a big difference?

Britt Rosencutter: I think Don Hattan was being a little generous with their thinking of getting it that quickly. We received some information from Rusty Eck Ford directly from Ford showing what their dates actually are and they are at the 18 to 30 weeks as opposed to the 90 to 120 days. It didn't come into the decision making on the purchase. It was based on low bid.
