

ITEMS REQUIRING BOCC APPROVAL
February 16, 2022
(7 Items)

1. BRIDGE IMPROVEMENTS (B504) -- PUBLIC WORKS

FUNDING -- PUBLIC WORKS

(Request sent to 46 vendors)

RFB #22-0004 S/C #Pending

Engineer's Estimate: \$606,117.00	Pbx Corporation	PCi Roads LLC
Bridge Improvements (B504) 801-E-1300; Bridge on 151st Street West between 85th and 93rd Streets North	\$464,938.65	\$1,024,511.80
Bid Bond	Yes	Yes
Acknowledge Addendum	Yes	Yes
No Bids	L & M Contractors, Inc.	Unruh Excavating

On the recommendation of Lee Barrier, on behalf of Public Works, Anna Meyerhoff-Cole moved to accept the low bid from Pbx Corporation in the amount of \$464,938.65. Russell Leeds seconded the motion. The motion passed unanimously.

Sedgwick County CIP Project B504 consists of repair work to a bridge originally constructed in 1966, located on 151st Street West between 85th and 93rd Streets North. The bridge is structurally deficient with a sufficiency rating of 36.7 out of 100. This is only one (1) of two (2) bridges that provides a crossing over the Arkansas River in northwest Sedgwick County. This project will limit closure time and provide continued safe use of this route without the need to fully reconstruct the bridge.

Questions and Answers

Tim Myers: Has Pbx Corporation done work for us in the past?

Lynn Packer: Pbx Corporation I believe has done work for us but it has been probably twenty or so years since then. They are out of Oklahoma and typically do work in that area and southeast Kansas. They come up here when we are short on contractors or when work down there is limited.

BOARD OF BIDS AND CONTRACTS FEBRUARY 16, 2022

2. ROAD IMPROVEMENTS (R359) -- PUBLIC WORKS

FUNDING -- R359 95th St S for 1/2 mi E of 135th W

(Request sent to 46 vendors)

RFB #22-0005 S/C #8000196837

Engineer's Estimates Base Bid: \$431,587.50 Alternate 1: \$1,099,537.00 Alternate 2: \$860,045.00	APAC-Kansas, Inc.	Cornejo & Sons, LLC

	Wildcat Construction	
Road Improvements (R359) 95th Street South, for one half mile east of 135th Street West	Base Bid: \$519,965.15 Alternate 1: \$1,025,576.05	
Bid Bond	Yes	
Acknowledge Addendum	Yes	
No Bid	L & M Contractors, Inc.	Nowak Construction Co., Inc.

On the recommendation of Lee Barrier, on behalf of Public Works, Tim Myers moved to accept the low bid from Pearson Construction, LLC (Alternate 1) in the amount of \$881,845.25. Jeff Bush seconded the motion. The motion passed unanimously.

Sedgwick County CIP Project R359 will construct a paved road on 95th Street South for one-half mile east of 135th Street West. This is an existing gravel road and traffic is expected to increase due to recent industrial development. Bids were submitted for both asphalt and concrete paving. Public Works recommends the concrete pavement option. Concrete is a better long-term solution in and around industrial parks, and the minor increase in overall project costs is easily offset with a reduction in future maintenance costs. Pearson Construction, LLC is well known to Public Works and has successfully worked on several past county projects.

Questions and Answers

Anna Meyerhoff-Cole: Can we get more information on the difference between the options? There is a base bid, an alternate 1, and alternate 2.

Lynn Packer: The differences in the alternates is either going with concrete paving with pavement marking specific concrete or with asphalt paving with the typical markings we use for asphalt. Those were the two (2) differences in the alternates. We got a really good bid on the concrete and we feel for the additional cost it's well worth it given this will have a high degree of truck traffic in an industrial park that will continue to grow.

Russell Leeds: What is the base bid price? If alternate 1 is concrete and alternate 2 is asphalt ,what is the base bid?

Lynn Packer: The base bid consists of earthwork, base preparation, ditches, guardrails, culvert structure. It includes mobilization of everything else out there except the surfacing for the work to be done.

Anna Meyerhoff-Cole: Is the cost of the work being done in the base bid included in the alternate 1 price or does the alternate 1 price just include paving?

Lynn Packer: The alternates includes the base bid.

BOARD OF BIDS AND CONTRACTS FEBRUARY 16, 2022

**3. 2 EA. TANDEM AXLE DUMP TRUCKS EQUIPPED WITH SALT/SAND SPREADER AND LIQUID ANTI-ICING AND DE-ICING SYSTEM -- FLEET MANAGEMENT / PUBLIC WORKS
FUNDING -- FLEET MANAGEMENT / PUBLIC WORKS**

(Joint Governmental Purchase - Sourcewell Contract #060920-KTC)

#22-2007 S/C #Pending

	Wichita Kenworth (Master Tech)	
	Unit Price	Extended Price
2 Ea. Tandem Axle Dump Trucks Equipped with Salt/Sand Spreader and Liquid Anti-Icing and De-Icing System	\$289,640.00	\$579,280.00
Make & Model	2023 Kenworth T880 MX13	
Lead Time for Chassis	6/15/2022	

On the recommendation of Britt Rosencutter, on behalf of Fleet Management and Public Works, Anna Meyerhoff-Cole moved to **utilize the Sourcewell contract #060920-KTC in the amount of \$579,280.00**. Tim Myers seconded the motion. The motion passed unanimously.

These trucks are used to haul a variety of items and are used daily. They haul materials to job sites on the roadways, bridge projects, and stream maintenance. Materials like sand, asphalt, dirt, rock for rock shouldering projects, rip-rap around bridges and streams, chip rock for roadway scrub seal, and other items that need to be hauled to project sites. They haul trees and debris from streams and bridges. They are utilized in the event of a natural disaster. The trucks will have spreaders and plows put on them to be used during snow and ice operations, and spray tanks to anti-ice before a snow event.

Notes:

Wichita Kenworth provides the chassis and Master Tech Truck and Equipment build and attach the dump bed and spreader/de-icer system.

Vehicles being replaced:

Fleet #0063 - 2010 PETERBILT 365, VIN# - 1NPSL50X9BD120149, Total Points - 17.6, Mileage - 202,604

Fleet #0193 - 2011 PETERBILT 365, VIN# - 1NPSL50X5BD120147, Total Points - 19.8, Mileage - 237,622

These are replacement vehicles for Public Works. Surplus will be sold on Purple Wave Auction.

Questions and Answers

Tim Myers: When do we expect to have these vehicles ready and in service?

Beau Bergeron: We don't know yet. We have a six (6) month lead time on the chassis and usually its four (4) to five (5) months on the set up of the bed but it will depend on logistics of getting materials.

Russell Leeds: I notice in the notes these are eleven and twelve year old trucks that exceed the point system. What is the wear and tear on these trucks? Rust damage and engine trouble?

Beau Bergeron: Yes. They are both severely well used. One of them over the last five (5) years we have put over \$50,000.00 just to keep it running. They are the worst of the bad ones we have so they are up first.

BOARD OF BIDS AND CONTRACTS FEBRUARY 16, 2022

4. AMBULANCES AND REMOUNTS - EMERGENCY MEDICAL SERVICES (EMS) / FLEET MANAGEMENT

FUNDING -- FLEET MANAGEMENT

(Joint Governmental Purchase - HGACBuy Contract No. AEV-AM10-20)

#22-2012 S/C Pending

	American Response Vehicles (ARV) & American Emergency Vehicles (AEV)		
	Qty.	Unit Cost	Extended Cost
2023 AEV Traumahawk Type III X-Series LTD Custom Ambulances Ford F550, 7.3L V8 Gasoline Engine	5	\$305,422.60	\$1,527,113.00
Delivery date	360-420 days after approval of the work order confirmation		
2023 AEV Traumahawk Type III X-Series LTD Custom Remount Ambulances Ford E450, 7.3L V8 Gasoline Engine	2	\$169,452.50	\$338,905.00
Delivery date	90 to 150 days after receipt of ambulances and chassis		
Total	7	\$1,866,018.00	

On the recommendation of Britt Rosencutter, on behalf of Emergency Medical Services (EMS) / Fleet Management, Anna Meyerhoff-Cole moved to **utilize HGACBuy Contract No. AEV-AM10-20 with American Response Vehicles (ARV) & American Emergency Vehicles (AEV) in the amount of \$1,866,018.00.** Jeff Bush seconded the motion. The motion passed unanimously.

Sedgwick County Fleet Management and EMS partnered with American Emergency Vehicles (AEV) in the construction of all new ambulances in 2012. Since that time, the county has taken delivery of 25 new ambulances and currently has seven (7) new ambulances under construction. Delivery of these ambulances is scheduled for July 2022.

Ambulances are made-to-order products with various layouts and requirements. EMS requires standardization in the construction of its ambulances. This is critical in order to facilitate timely response and care of patients. This standardization also provides a safer working environment for responders when working on-scene with patients. This standardization is also endorsed by our Ambulance Accreditation, CAAS (Commission on Accreditation of Ambulance Services). The county currently has 29 front line ambulances in the fleet, all built to the same specifications.

In 2013, AEV started remounting all our current ambulances and have completed 17 remounts. We have two (2) additional remounted ambulances that are scheduled to be complete and delivered in early March 2022. The remount process is where the ambulance module, or box, is removed from the vehicle chassis. The box is completely refurbished with new flooring, seats, interior cabinet doors, exterior paint, and decals. All electrical systems are tested and evaluated for any upgrades. Broken or damaged interior and exterior compartments are repaired and the heating and cooling system is evaluated for repairs. The box is then placed on a new current model year chassis and then delivered back to Sedgwick County.

For an ambulance to qualify under the HGACBuy Group, it must meet 75% of the base standard published options group. The customized portion of the ambulance cannot exceed 25% of the construction. The specifications for Sedgwick County's ambulances meet the 75% base standard and consists of just 5% customizable options.

AEV is in Jefferson, North Carolina and produces about 1,400 of the 5,000 new ambulances constructed in the United States every year. AEV's parent company, REV Group, owns five (5) other ambulance manufacturers and along with AEV, constructs 45%-50% of all new ambulances produced in the United States.

The ambulance modules (box) used by AEV are constructed by Mickey Truck Bodies (Mickey) in High Point, North Carolina. Mickey is a national company that has been in business since 1904. Mickey manufactures aluminum beverage truck bodies, beverage trailers, dry freight, refrigerated van bodies, emergency vehicles, and specially engineered equipment for customers throughout the U.S. and more than 50 other countries. Mickey only produces ambulance modules for AEV and they have been working together since 1991.

Notes:

All ambulances are required under the Federal KKK-A-1842F to be compliant with all minimum federal safety standards. AEV sets the industry standard for vehicle safety. AEV is the only ambulance manufacturer that has performed extensive crash testing on their ambulances and complies with the Federal Motor Vehicle Safety Standard. They also work with the Society of Automotive Engineers (SAE) in the design and testing of occupant seating and restraint systems for personnel being transported in the patient compartment. AEV has also made Fleet Management an authorized warranty repair center for all county ambulances.

Ford QVM (Qualified Vehicle Modifier) Program is Ford Motor Company's quality recognition given to aftermarket adaptive equipment installers that meet manufacturing "best practice" guidelines. Ford Motor Company developed the QVM program to assist builders in achieving greater levels of customer satisfaction and product acceptance through the manufacturing of high-quality conversion vehicles. To qualify as a QVM, a modifier must be successfully evaluated by Ford Motor Company on criteria such as engineering, the manufacturing process, quality control, and adherence to Ford guidelines. AEV has been a member of the Ford QVM program since 2010. AEV has also been recognized as a "Carolina Star Worksite" by the North Carolina Department of Labor for total commitment to creating and maintaining a safe and healthy workplace.

In 2021, the EMS was dispatched to 69,823 calls with 46,795 patients transported. As a service, we have driven 1,173,904 miles in 2021 and are projected to drive close to 1,225,000 miles by the end of 2022.

A new ambulance from AEV will cost \$305,422.60 and will have a life span of four (4) to five (5) years depending on miles driven and overall condition. A remounted ambulance costs \$169,452.50 and will also have the same four (4) to five (5) year life span. The cost savings for remounting an ambulance versus purchasing new is \$135,970.00 per ambulance. Over the next five (5) years, EMS and Fleet anticipate remounting 26 ambulances, saving the county approximately \$3,535,222.00 as opposed to purchasing new ambulances.

Questions and Answers

Russell Leeds: Paul, just for clarification, we are currently running 29 ambulances? Are those in service and reserve ambulances combined?

Paul Gibson: That is correct, 29 ambulances. We run 19 ambulances 24 hours a day, 12 of those 19 run 12 hours at night. We run 10 spare trucks at this time.

Russell Leeds: Right before the end of the year we placed an order for seven (7) new vehicles, is that correct?

Paul Gibson: Correct. We placed an order in June of 2021 for seven (7) brand new ambulances. Due to delays in materials, and everything else that has been going on, the delivery dates have been pushed from December of 2021 to July of 2022.

Russell Leeds: This item we are going to replace five (5) additional ambulances. Right, we're going to buy five (5) new ones to replace five (5) and we are going to remount two (2)?

Paul Gibson: Yes. Five (5) are additional trucks that have met the points criteria. They range in miles from 170,000 to 228,000 miles right now. If order placed today, the anticipated delivery is approximately August or September of 2023. We estimate an additional 40,000 miles to be placed on these trucks between now and that time.

Russell Leeds: The remounts will still be on the old frames but the new ones will be the F550 frame with the bigger chassis?

Paul Gibson: Yes. That is correct.

BOARD OF BIDS AND CONTRACTS FEBRUARY 16, 2022

5. MEDICAL GRADE OXYGEN – EMERGENCY MEDICAL SERVICES (EMS) AND VARIOUS DEPARTMENTS

FUNDING – EMS

(Request sent to 68 vendors)

RFB #21-0034 Contract

	Wichita Welding Supply, Inc.	
Medical Grade Oxygen	See Itemizations Attached	
Acknowledge Addendum	Yes	
No Bid	Airgas Mid South	Boone Opportunities
	Central Gas Service LLC	Grainger Industrial Supply
	Hampel Oil Distributors Inc	Heathwood Oil Co., Inc.
	Lampton Welding Supply	Murdock Companies Inc
	Phillips Enterprises	Propane Central LLC
	Saratoga Rack Marketing LLC	Shepherd Oil Co.
	Wayman Oil Co.	

On the recommendation of Britt Rosencutter, on behalf of EMS and various departments, Tim Myers moved to **accept the bid from Wichita Welding Supply, Inc. at the rates listed (see attachment) and establish contract pricing for one (1) year with four (4) one (1) year options to renew.** Kenly Zehring seconded the motion. The motion passed unanimously.

Oxygen will be used by Sedgwick County EMS, Sedgwick County Fire District 1, Wichita Fire, Derby Fire, and Colwich Fire Departments. EMS relies on our first responder partners on almost all emergent calls. Maintaining oxygen to these allied services assists in providing critical emergency care until a responding EMS ambulance arrives.

This contract will provide Medical Grade Oxygen in the “M” and Jumbo “D” sized cylinders, along with OSHA approved cylinder storage cabinets. It will also provide maintenance on all cylinders as needed, annual testing, and FDA certification on all cylinders.

Oxygen deliveries are made several times a week to the four (4) major hospitals and to 32 separate fire stations throughout Wichita and Sedgwick County. On a monthly average, all services use approximately 400 - 600 Jumbo “D” cylinders and 60 - 80 “M” cylinders.

Notes:

Sedgwick County EMS has been using Wichita Welding Supply, Inc. for all its medical oxygen needs dating back to the mid 1990’s. Wichita Welding Supply, Inc. has always provided EMS with 24/7 support, emergency deliveries, and additional cylinders when needed. This proved to be essential during the height of EMS Covid responses over the past two (2) years.

Wichita Welding Supply, Inc. is the current vendor. Last year's spend was approximately \$78,949.95.

Questions and Answers

Russell Leeds: Can you tell us whether or not there was an increase in the pricing due to inflation or did the pricing stay pretty consistent?

Paul Gibson: We did see a small percentage increase, probably less than 5% across the board on the cylinder rental and the oxygen usage as well.

Russell Leeds: So we can anticipate a 5% increase over the \$79,000.00 from last year?

Paul Gibson: Probably, yes.

Russell Leeds: Wichita Welding was the only one to bid?

Paul Gibson: Yes. Purchasing sent the proposal out to numerous vending sources. Wichita Welding was the only one to return a bid.

Russell Leeds: They've been our supplier for a while?

Paul Gibson: We've been dealing with Wichita Welding for medical oxygen since the mid-1990s.

TOTAL			\$228,625.17

On the recommendation of Tammy Culley, on behalf of Division of Information & Technology (DIT), Anna Meyerhoff-Cole moved to **accept the quote from Konica Minolta Business Solutions USA, Inc. in the amount of \$228,625.17.** Tim Myers seconded the motion. The motion passed unanimously.

OnBase is the county scanning and document management solution.

Notes:

Last year the county spent \$208,031.02 for this support.

BOARD OF BIDS AND CONTRACTS FEBRUARY 16, 2022

7. PATIENT TRANSPORTATION -- VARIOUS DEPARTMENTS

FUNDING -- VARIOUS DEPARTMENTS

(Request sent to 30 vendors)

RFP #21-0072 Contract

	Apple Bus Company	Medevac MidAmerica, Inc. dba American Medical Response (AMR)
Rates for Transport of one (1) or more patients per trip not requiring restraints

1. Trip from Wichita to Osawatomi State Hospital	\$639.55	Incomplete
2. Trip from Wichita to Larned State Hospital	\$699.55	Incomplete
3. Per mile rate as needed for transportation service other than to or from above hospitals	\$2.75	Incomplete
No Bid	Always There Senior Care, Inc.	Cerebral Palsy Research Foundation
	Starkey, Inc.	

On the recommendation of Britt Rosencutter, on behalf of various departments, Anna Meyerhoff-Cole moved to **accept the best proposal from Apple Bus Company at the rates listed above and establish contract pricing for one (1) year with four (4) one (1) year options to renew.** Jeff Bush seconded the motion. The motion passed four out of five with Tim Myers abstaining.

A committee comprised of Itress Tackett and Tina Prejean - COMCARE; Col. Jared Schechter and Capt. Paula Smith - Sheriff's Office; and Britt Rosencutter - Purchasing, reviewed and scored the responses based on criteria set forth in the RFP. The committee unanimously decided to recommend Apple Bus Company for award.

COMCARE of Sedgwick County is a licensed community mental health center and licensed alcohol and drug treatment provider serving Sedgwick County, Kansas. COMCARE serves approximately 19,000 individuals annually with a variety of mental and behavioral health issues.

Some of the clients served through COMCARE require transportation from the local psychiatric hospital and service provider locations to state hospitals for continued treatment or must be transported from a state hospital to a provider.

Occasionally, additional patient or inmate transportation needs arise. COMCARE and the Sheriff's Office require a transportation vendor to provide safe and efficient transportation services.

Notes:

Apple Bus Company is our current vendor. The annual spend is approximately \$70,000.00.

This is a proposal and not a bid. Proposals are scored based on criteria set forth in our RFP. There are five (5) components to this RFP:

Component	Points
1. Meeting or exceeding all solicitation conditions and instructions as outlined herein to include clarity, completeness, and comprehensiveness of the response.	20
2. Ability to meet or exceed all requirements and scope of work.	20
3. Proven ability to provide high quality service.	20
4. Qualifications and expertise.	20
5. The most advantageous and prudent methodology and costs as determined by the county.	20
Total Points	100

Questions and Answers

Russell Leeds: Apple Bus is our current vendor?

Britt Rosencutter: Correct.

Russell Leeds: This is a renewal?

Britt Rosencutter: Correct. The contract had reached its expiration so we put this back out.
