Answers to questions from the TF from the Monday, March 14 meeting:

Questions for the State of Kansas – KDOC

- Is there funding available for facility enhancements?
  
  There is an option to grant funds for facility enhancements or “softening” of detention beds. The details would have to be reviewed but generally speaking, funds are available.

- What is the State budget (last year and current) for mental health and juvenile justice?
  
  I am not certain what specifically this question is addressing as I cannot speak to the state budget for mental health. I think what is actually being asked is about what I spoke to last week so that is how I am going to respond. The Juvenile Justice Oversight Committee has approved $750,000 each year for FY22 and FY23. This is through the Reinvestment Fund or Evidence based Fund. There are statutory requirements to the use of these funds but it is specific to juvenile justice and families.

  It may also be helpful to look at our Annual Report (link below) starting on page 59 -61 which outline the various grants for juvenile services. Several agencies fund some forms of mental health services through these various grant opportunities.
