- During the month of December, Sedgwick County Developmental Disability Organization (SCDDO) Quality Assurance Staff completed 14 day and 12 residential program visits.
- In December the SCBLN hosted their final quarterly themed activity for the year which focused on veterans entering the workforce, it was a breakfast mixer titled: "Veteran Employment and Transition Breakfast Mixer." The speaker was Dr. Christopher Stone MBA, Ph.D. Dr. Stone facilitated a short presentation followed by a question and answer session. The presentation focused on common characteristics & traits that most veterans have when they leave the military and how employers can harness and best use them. The event was scheduled for an hour and fifteen minutes, but many of the participants stayed after the presentation to continue the conversation about how they could better incorporate veterans into their workforce. Representatives from the Veterans Administration and Kansas Workforce Alliance were there to also help facilitate supports for the businesses that participated and to discuss their Veteran related programs.
- Wichita State University (WSU) has been facilitating a learning collaborative to support the individuals providing the NADD behavioral health approaches to intellectual/developmental disabilities training. In their final report, WSU noted that over 300 individuals have received this training to date. The NADD training is a key component of the SCDDO's effort to improve the availability of behavioral health care to individuals with Intellectual/developmental disabilities. Additional trainings are already scheduled for 2019 and we anticipate training at least another 100 professionals in February.
