No Bid	Nowak Construction Co., Inc.	Unruh Excavation

On the recommendation of Lee Barrier, on behalf of Public Works, Anna Meyerhoff-Cole moved to **accept the low bid from PbX Corporation (Alternate 1) in the amount of \$846,095.90.** Jennifer Blasi Seconded the motion. The motion passed unanimously.

Sedgwick County Project B505 will rehabilitate two (2) bridges on Ridge Road between 61st and 109th Streets North. Work will consist of concrete deck repair, replacement of the expansion joints, repair of the bridge safety rail, and other minor work to significantly extend the life of these structures. Repairs will be made under traffic with the use of temporary traffic signals.

Questions and Answers

Brandi Baily: I understand the base bid, can you explain what Alternate 1 bid means?

Lynn Packer: We did an alternate given the fact that prices have been steeply increasing in the given market. We went ahead and placed one of the bid items as an alternate, just in case we didn't have enough money to do it, we could pull that one out and do it at a later time. We have sufficient funds and a good enough bid, we were able to accept it and include it with the base bid.

Russel Leeds: What additional work is going to be done through that alternate one, just out of curiosity? Or is it material or what is it, do you know?

Lynn Packer: I'm looking at it now. It is a deck overlay.

Tim Meyers: Lynn, have we used PbX Corporation before?

Lynn Packer: They are currently under contract to do a bridge rehab on 151st that is slated to begin in June. Prior to that it has been some time since we have used them, however, they are a well known company that specializes in bridge repair and bridge rehabilitation. Based in Oklahoma, they do work for ODOT as well as KDOT, and come into Southern Kansas to do work when projects like this emerge.
