

In early 2019, Sedgwick County retained Wichita State University's Public Policy and Management Center (PPMC) for assistance developing a new strategic plan. This process was especially timely considering new leadership within the Board of County Commissioners (BOCC) and County Manager's Office in early 2019 reinforcing the need to revisit the Strategic Plan.

PPMC was charged with assessing the current internal and external environment, and they sought input from elected/appointed officials, leadership, employees, and the community. They worked with the organization to create a new vision, mission, and value statements and determine specific goals, actions, and priorities for Sedgwick County.

In February 2019, County Commissioners were interviewed and staff at the PPMC completed an influencing factors report in May. Five work teams, representative of leadership staff and comprised of programs across the organization, participated in four group meetings throughout March, April, and May. Employees at all levels of the organization were engaged through supervisor led focus groups. Focus group participation reflected approximately 30.0 percent of total employees. Leadership then reviewed all the material and feedback through July. The plan was developed from involvement with Commissioners at regular intervals throughout the process. In the fall of 2019, members of the public were engaged through several community meetings regarding the draft of the Strategic Plan. The new strategic plan was adopted by the BOCC on December 11, 2019.

Divisions and departments then began the process of utilizing a template to develop their strategic plans as part of the final stage of the project. However, the process was put on hold at the end of March 2020 due to the coronavirus disease (COVID-19) pandemic. At the end of 2021, divisions and departments were instructed to finish developing their strategic plans and refresh their existing plans if they were developed after the County-wide plan was adopted in December 2019.

Once all plans are complete, the intention is to create two dashboards based on specific departmental strategic plans. One dashboard will be internal to help the organizational management team move the organization forward. The dashboard will have numerous measures to help determine success or failures within the County's core mission and correct substandard measures through adjustments to areas such as funding and staffing. The external dashboard will show citizens the important and core functions of County departments and whether standards are being met, or not, in relation to those duties.

As a result of the new strategic plan and a change in the way departments will measure their performance, the Performance Measure Highlights page (following page) has been eliminated from the budget book. Departments are now discussing their anticipated Strategic Results until their strategic plans are finalized (following page). Once all strategic plans are complete, that information will be added back into the budget book in a format that allows departments to detail their strategic plan, explain how that plan fits under the County-wide strategic plan, and provide measurable strategic results.

County Manager's Message

Over the past year, Sedgwick County has been dedicated to developing a new comprehensive Strategic Plan. We gathered input from County Commissioners, our local and regional partners, community stakeholders and county employees - many of whom spent time facilitating meetings and gathering information to contribute to this effort.

This process strived to be inclusive and engaging, including five work teams, several focus groups and more than 1,500 employees, to date. This Strategic Plan was shared with residents and other community members at public meetings including Citizen Advisory Boards where attendees were encouraged to participate and ask questions. All input was essential to the process and we appreciate all of these contributions.

We know the services and leadership provided by Sedgwick County employees are essential to the well-being and success of our neighbors, co-workers and visitors to our community. As we move forward with a shared vision, we aspire to strengthen critical partnerships, engage new stakeholders and continuously improve our work. This collaborative approach will guide our accomplishments as an innovative organization over the next one to five years.

To this end, we have fresh mission, vision and values statements, along with new organizational goals. Every County department will contribute a companion Strategic Plan document which will align with the larger organizational plan. We continue to develop and modify purposeful performance measures and will use our Strategic Plan to guide our budget over the next several years to provide the essential work we do for the people of Sedgwick County.

The Strategic Plan can be found on the County website, sedgwickcounty.org and serve as a resource. As goals are achieved and re-evaluated, all updates and revisions will remain on this site.

Going forward, the Strategic Plan will serve as a living document. As goals are achieved, new objectives will be identified and evaluated.

We want to express our gratitude to the Public Policy and Management Center from Wichita State University for guiding the process, with a special thanks to Misty Bruckner, LaShonda Garnes and Sarah Gooding.

We also want to thank the Board of County Commissioners for their leadership and support during this thorough process and Sedgwick County employees for their ideas and participation. It is a privilege to work with such a great team.
