Ballot Boxes

Comment:

Who decided the placement throughout the county of the boxes
How was that decision made They say they are subject to video
Are they in view of cameras at all times So the public can have
access to view the video from July 18th until August 2nd at 7 pm
correct

Ballot Boxes

Comment:

I am very concerned about the drop boxes located in remote parks and available 24/7. Why does Sedgwick county have more than KC? Please limit the boxes, have cameras posted 24/7 or require people to walk in and be monitored while voting. We're just aching for trouble. Emotions are high in this election and the world has their eye on the results of the Value Them Both Amendment. Thank you.

Ballot Boxes

Comment:

It has come to my attention that we have 14 Ballot box's in our county. In leu of the very serious voter fraud allegations across our country I think those need to be taken out. People can mail their ballots in like it used to be done. Where did we get the money for all those boxes?How are they being kept secure?I hope you will seriously consider the removal of these boxes.Thanks, Jenny Brown

Ballot Boxes

Comment:

If you haven't watched the 2000 mules, you may be fooled into believing these are a legitimate way to get more people to vote. If people aren't willing to take a few minutes to drive to their polling place and be identified, they aren't eligible. Why open the door for cheating?

Ballot Boxes

Comment:

What is being done to keep these drop boxes secure and only authorized legitimate voter ballots placed in them? Are these drop boxes monitored 24/7? Have you watched the documentary 2000 Mules? This is why I have these concerns.

Ballot Boxes

Comment:

I do not support the use of drop boxes. If they must be used, they need 24 hour video surveillance that should be retained and made available for inspection for the same length of time as the rest of the election records. Thank you

Ballot Boxes

Comment:

I am concerned about the use of ballot boxes. How are these accessed by county officials? Are their cameras watching them 24/7? And Even if there are how can you ensure the cameras will not be tampered with and people not be able to get into the boxes? This does not seem like a wise idea. It diminishes the security and the integrity of our voting system. I ask that you would reconsider using them.

Election Security

Comment:

Please... keep our elections accessible and secure. I read in the Eagle of people attempting to influence your decisions on ballot drop boxes. And I'm thankful that you have maintained a position of truth and security. These people are lying about election officials, making false claims, and trying to disenfranchise voters. I am writing to say thank you for the support of our already secure elections and to balance the voices you're hearing. Please, keep these drop boxes, early voting, and supporting our election system.
